Unabridged version of The Mis-Education of the Negro, by Carter Godwin Woodson, offered here for chump change. An underappreciated classic, anyone studying influence, the psychology of persuasion, or social controls would do well to study this book. Woodson states it straight and deserves greater study by all in power, "When you control a man's thinking you do not have to worry about his actions. You do not have to tell him not to stand here or go yonder. He will find his 'proper place' and will stay in it." For those that read The Art of War, The Prince, Meditations, or How to Win Friends and Influence People, this book, The Mis-Education of the Negro, should be added to their book shelf of classics Contents Foreword 3 Preface 3 Chapter I: The Seat of the Trouble 5 Chapter II: How We Missed the Mark 7 Chapter III: How We

"There's not a dated maxim or vague prescription in it." — Newsweek Regarded as the world's oldest military treatise, this compact volume has instructed officers and tacticians for more than 2,000 years. From its origins in China, The Art of War traveled the world to inform the strategies of Napoleon and World War II generals. More recently, it has taken on a new life as a guide to competing successfully in business, law, and sports. All of The Art of War's concepts retain their value to modern readers, from the prudence of circumventing a strong opponent and taking advantage of a weak one to the wisdom of preparedness and flexibility. Other topics include strategy, tactics,

maneuvering, communications, the treatment of soldiers, and the worth of well-trained officers. History enthusiasts, business thought leaders, and anyone intrigued by competition and rivalry will appreciate this elegant edition of the classic work.

The Art of War is a Chinese military treatise that was written during the 6th century BC by Sun Tzu. Composed of 13 chapters, each of which is devoted to one aspect of warfare, it has long been praised as the definitive work on military strategies and tactics of its time. The Art of War is one of the oldest books on military strategy in the world. It is the first and one of the most successful works on strategy and has had a huge influence on Eastern and Western military thinking, business tactics, and beyond. Sun Tzu was the first to recognize the importance of positioning in strategy and that position is affected both by objective conditions in the physical environment and the subjective opinions of competitive actors in that environment. He taught that strategy was not planning in the sense of working through a to-do list, but rather that it requires quick and appropriate responses to changing conditions. Planning works in a controlled environment, but in a competitive environment.

'The Communist Manifesto' is the classic work of economics that initiated one of the greatest movements of political change that the world has ever seen. The writings of Karl Marx brilliantly expose the vast divide between the elite ruling class and the working class that has existed throughout history. At the time 'The Communist Manifesto'
