Fifteen specially commissioned essays from distinguished authors explore the value of critical thinking, the power of the written word, and the resonance of literature in the twenty-first century. Each explores the crucial place of the writer, past and present. Their work articulates 'brave new words' at the heart of battles against limitations on fundamental rights of citizenship, the closure of national borders, fake news, and an increasing reluctance to engage with critical democratic ...

a novel (1932) by Aldous Huxley.It is set in the future, when there have been many scientific advances but people have no personal freedom. People sometimes use the phrase brave new world to refer to present societies like this, or to refer humorously to something new and unknown. I'm a bit sceptical about the brave new world of community policing promised by the government.
