An incandescent new voice from Mexico, for readers of Ben Lerner and Rachel Cusk Sitting at the bedside of his mother as she is dying from leukemia in a hospital in northern Mexico, the narrator of Tomb Song is immersed in memories of his unstable boyhood and youth. His mother, Guadalupe, was a prostitute, and Julián spent his childhood with his half brothers and sisters, each from a different father, moving from city to city and from one tough neighborhood to the next. Swinging from the present to the past and back again, Tomb Song is not only an affecting coming-of-age story but also a searching and sometimes frenetic portrait of the artist. As he wanders the hospital, from its buzzing upper floors to the haunted depths of the morgue, Julián tells fevered stories of his life as a writer, from a trip with his pregnant wife to a poetry festival in Berlin to a drug-fueled and possibly completely imagined trip to another festival in Cuba. Throughout, he portrays the margins of Mexican society as well as the attitudes, prejudices, contradictions, and occasionally absurd history of a country ravaged by corruption, violence, and dysfunction. Inhabiting the fertile ground between fiction, memoir, and essay, Tomb Song is an electric prose performance, a kaleidoscopic, tender, and often darkly funny exploration of sex, love, and death. Julián Herbert’s English-language debut establishes him as one of the most audacious voices in contemporary letters.

Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the wake of the Carolingian renaissance of the 8th and 9th centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction, designedboth for those to whom the subject is new and those who require a reference work for advanced studies. It begins with an explanation of the liturgies which plainchant was designed to serve. All thechief genres of chant, different types of liturgical book, and plainchant notations are described. The later chapters are complemented by plates, with commentary and transcriptions. After an exposition of early medieval theoretical writing on plainchant, a historical survey follows the constantly changing nature of the repertory through from the earliest times to the restoration of medieval chant a century ago. The historical relations between Gregorian, Old-Roman, Milanese, Spanish, and otherrepertories is considered. Important musicians and centre of composition are discussed, together with the establishment of Gregorian chant in all the lands of medieval Europe, and the reformations andrevisions carried out by the religious orders and the humanists. Copiously illustrated with over 200 musical examples transcribed from original sources, the book highlights the diversity of practice and richness of the chant repertory characteristic of the Middle Ages. As both a self-contained summary and also, with its many pointers to further reading, a handbook for research, it will become an indispensable reference book on this vast subject.

A warm, comforting poem about finding peace in a community of neighbors Peace is an offering. A muffin or a peach. A birthday invitation. A trip to the beach. Join this group of neighborhood children as they find love in everyday things—in sunlight shining through the leaves and cookies shared with friends—and learn that peace is all around, if you just look for it. With rhyming verse and soft illustrations, this book will help families and teachers look for the light moments when tragedy strikes and remind readers of the calm and happiness they find in their own community every day.

The marriage of philosophy and fiction in the first third of Spain's twentieth century was a fertile one. It produced some truly notable offspring -- novels that cross genre boundaries to find innovative forms, and treatises that fuse literature and philosophy in new ways. In her illuminating interdisciplinary study of Spanish fiction of the "Silver Age," Roberta Johnson places this important body of Spanish literature in context through a synthesis of social, literary, and philosophical history. Her examination of the work of Miguel de Unamuno, Pio Baroja, Azorin, Ramon Perez de Ayala, Juan Ramon Jimenez, Gabriel Miro, Pedro Salinas, Rosa Chacel, and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period's most canonical novels. Johnson reformulates the traditional discussion of generations and "isms" by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another. Current narratological theories, including those of Todorov, Genette, Bakhtin, and Martinez Bonati, assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period, while the sociological and biographical material bridges the philosophical and literary analyses. The result, solidly grounded in original archival research, is a convincingly complete picture of Spain's intellectual world in the first thirty years of this century. Crossfire should revolutionize thinking about the Generation of '98 and the Generation of '14 by identifying the heterogeneous philosophical sources of each and the writers' reactions to them in fiction.

A brilliant work of historical excavation with profound echoes in an age redolent with violence and xenophobia Early in the twentieth century, amid the myths of progress and modernity that underpinned Mexico’s ruling party, some three hundred Chinese immigrants—close to half of the Cantonese residents of the newly founded city of Torreón—were massacred over the course of three days. It is considered the largest slaughter of Chinese people in the history of the Americas, but more than a century later, the facts continue to be elusive, mistaken, and repressed. “And what do you know about the Chinese people who were killed here?” Julián Herbert asks anyone who will listen. An exorcism of persistent and discomfiting ghosts, The House of the Pain of Others attempts a reckoning with the 1911 massacre. Looping, digressive, and cinematic, Herbert blends reportage, personal reflection, essay, and academic research to portray the historical context as well as the lives of the perpetrators and victims of the “small genocide.” This brilliant historical excavation echoes profoundly in an age redolent with violence and xenophobia.

In The Bow and the Lyre Octavio Paz, one of the most important poets writing in Spanish, presents his sustained reflections on the poetic phenomenon and on the place of poetry in history and in our personal lives. It is written in the same prose style that distinguishes The Labyrinth of Solitude. The Bow and the Lyre will serve as an important complement to Paz’s poetry. Paz’s discussions of the different aspects of the poetic phenomenon are not limited to Spanish and Spanish American literature. He is almost as apt to choose an example from Homer, Vergil, Blake, Whitman, Rimbaud as he is from Lope de Vega, Jiménez, Darío, Neruda. In writing these essays, he draws on his vast storehouse of knowledge, revealing a world outlook of ample proportions. In reading these essays, we share the observations of a searching, original, highly cultivated mind.

The award-winning debut novel by young Mexican author Aura Xilonen, The Gringo Champion is a thrillingly inventive story about crossing borders that the Los Angeles Review of Books called "one of the must-read books of 2017." Liborio has to leave Mexico, a land that has taught him little more than a keen instinct for survival. He crosses the Rio Bravo, like so many others, to reach "the promised land." And in a barrio like any other, in some gringo city, this illegal immigrant tells his story. As Liborio narrates his memories we discover a childhood scarred by malnutrition and abandonment, an adolescence lived with a sense of having nothing to lose. In his new home, he finds a job at a bookstore. He falls in love with a woman so intensely that his fantasies of her verge on obsession. And, finally, he finds himself on a path that just might save him: he becomes a boxer. This is a migrant’s story of deracination, loneliness, fear, and finally, love told in a sparkling, innovative prose. It’s Million Dollar Baby meets The Brief Wondrous Life of Oscar Wao, and a story of migration and hope that is as topical as it is timeless.

#1 NEW YORK TIMES BESTSELLER • In Sapiens, he explored our past. In Homo Deus, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today’s most pressing issues. “Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century.”—Bill Gates, The New York Times Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KOED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari’s 21 Lessons for the 21st Century is a probing and visionary investigation into today’s most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari’s unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, 21 Lessons for the 21st Century is essential reading. “If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari’s 21 Lessons for the 21st Century would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: “What is happening in the world today, and what is the deep meaning of these events?”—BookPage (top pick)
