King writes his novels like a seduction, the story unfolding delicately and deliberately. As any Stephen King fan knows, his coy expository chapters often take up the first hundred pages or more. In Cell, however, the reader is brutally dragged into the main action—unspeakable, senseless violence—within the first seven pages.

From international bestseller Stephen King, a high-concept, ingenious and terrifying story about the mayhem unleashed when a pulse from a mysterious source transforms all cell phone users into homicidal maniacs. There's a reason cell rhymes with hell. On October 1, God is in His heaven, the stock market stands at 10,140, most of the planes are on time, and Clayton Riddell, an artist from Maine, is almost bouncing up Boylston Street in Boston. He's just landed a comic book deal that might finally enable him to support his family by making art instead of teaching it. He's already picked up a small (but expensive!) gift for his long-suffering wife, and he knows just what he'll get for his boy Johnny. Why not a little treat for himself? Clay's feeling good about the future. That changes in a hurry. The cause of the devastation is a phenomenon that will come to be known as The Pulse, and the delivery method is a cell phone. Everyone's cell phone. Clay and the few desperate survivors who join him suddenly find themselves in the pitch-black night of civilization's darkest age, surrounded by chaos, carnage, and a human horde that has been reduced to its basest nature...and then begins to evolve. There's really no escaping this nightmare. But for Clay, an arrow points home to Maine, and as he and his fellow refugees make their harrowing journey north they begin to see crude signs confirming their direction. A promise, perhaps. Or a threat... There are 193 million cell phones in the United States alone. Who doesn't have one? Stephen King's utterly gripping, gory, and fascinating novel doesn't just ask the question "Can you hear me now?" It answers it with a vengeance.

'Civilization slipped into its second dark age on an unsurprising track of blood but with a speed that could not have been foreseen by even the most pessimistic futurist. By Halloween, every major city from New York to Moscow stank to the empty heavens and the world as it had been was a memory.' The event became known as The Pulse. The virus was carried by every cell phone operating within the entire world. Within hours, those receiving calls would be infected. A young artist Clayton Riddell realises what is happening. He flees the devastation of explosive, burning Boston, desperate to reach his son before his son switches on his little red mobile phone . . .

#1 New York Times bestselling author Stephen King's terrifying novella about a town engulfed in a dense, mysterious mist as humanity makes its last stand against unholly destruction—originally published in the acclaimed short story collection Skeleton Crew and made into a TV series, as well as a feature film starring Thomas Jane and Marcia Gay Harden. In the wake of a summer storm, terror descends...David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies following a freak storm. Once there, they become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on their nerves, a religious zealot, Mrs. Carmody, begins to play on their fears to convince them that this is God's vengeance for their sins. She insists a sacrifice must be made and two groups—those for and those against—are aligned. Clearly, staying in the store may prove fatal, and the Draytons, along with store employee Ollie Weeks, Amanda Dumfries, Irene Reppler, and Dan Miller, attempt to make their escape. But what's out there may be worse than what they left behind. This exhilarating novella explores the horror in both the enemy you know—and the one you can only imagine.

You can run. You can hide. Just don't pick up . . . The event which propels civilisation into its second dark age is known as The Pulse. The virus is carried by every cellular phone operating in the world. Within hours, those receiving calls will be infected. Clayton Riddell, an artist and young father, knows he has to reach his son before the boy switches on his phone. But time is running out . . .

In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis' parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents--telekinesis and telepathy--who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and 10-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from The Institute.

Jasmine Aimaq's stunning debut explores Afghanistan on the eve of a violent revolution and the far-reaching consequences of a young Kochi girl's tragic death. Afghanistan, 1970s. Born to an American mother and a late Afghan war hero, Daniel Sajadi has spent his life navigating a complex identity. After years in Los Angeles, he is returning home to Kabul at the helm of a US foreign aid agency dedicated to eradicating the poppy fields that feed the world's opiate addiction. But on the drive out of Kabul for an anniversary trip with his wife, Daniel accidentally hits and kills a young Kochi girl named Telaya. He is let off with a nominal fine, in part because nomad tribes are ignored in the eyes of the law, but also because a mysterious witness named Taj Maleki intercedes on his behalf. Wracked with guilt and visions of Telaya, Daniel begins to unravel, running from his crumbling marriage and escalating threats from Taj, who turns out to be a powerful opium khan willing to go to extremes to save his poppies. This groundbreaking literary thriller reveals the invisible lines between criminal enterprises and political regimes—and one man's search for meaning at the heart of a violent revolution.
