A very challenging subject IB chemistry requires tremendous effort to understand fully and attain a high grade. 'IB Chemistry Revision Guide' simplifies the content and provides clear explanations for the material.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Stretch your students to achieve their best grade with these year round course companions; providing clear and concise explanations of all syllabus requirements and topics, and practice questions to support and strengthen learning. - Consolidate revision and support learning with a range of exam practice questions and concise and accessible revision notes - Practise exam technique with tips and trusted guidance from examiners on how to tackle questions - Focus revision with key terms and definitions listed for each topic/sub topic

Fully comprehensive coverage of the 2007 syllabus at SL and HL, this user-friendly guide effectively reinforces all the key concepts and supports the highest achievement in assessment. With in-built support for the internal assessment, it will build confident and cement understanding.

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the new Oxford Chemistry Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources provide focused review of all important

concepts, tangibly strengthening assessment potential.

This book contains seven excellent Internal Assessments (IA) for the IB Chemistry course. Our goal is to help you understand how success is achieved in the IA so that you can go on to obtain a similar result. Alongside these IAs is a clear and comprehensive guide on how to write yours, including everything from how to choose an interesting topic to how to integrate the IA with your studies and the syllabus. The guide also includes links to various online resources which may help you achieve the maximum mark. Sections include: - Structure: how to plan your Chemistry IA the ideal way - Ideas: an exhaustive list of excellent sources and websites - Assessment: maximizing your marks with one eye on the grading criterion - Technology: what tools can be used to improve your IA Our guide makes frequent reference to the grading matrix and the format that your IA should follow, as well as highlighting details which you must bear in mind when carrying out your investigation. EIB Education (Elite IB Tutors) are a globally recognized authority in the International Baccalaureate. Having supported thousands of students across 40 countries in the past 7 years, EIB supports students, families and schools through the entire IB journey.

A very challenging subject IB chemistry requires tremendous effort to understand fully and attain a high grade. 'IB Chemistry Revision Guide' simplifies the content and provides clear explanations for the material.

This concise guide provides the content needed for the Chemistry IB diploma at both Standard and Higher Level. It follows the structure of the IB Programme exactly and includes all the options. Each topic is presented on its own page for clarity, Higher Level material is clearly indicated, and there are plenty of practice questions. The text is written with an awareness that English might not be the reader's first language
