Children of Time: The Complete Book eBook by G. J. Winters ...

The fact that children distort time in certain conditions does not mean that they do not possess a basic time discrimination ability. The task is to determine the conditions in which children's time judgements are or are not accurate, and why. However, children's ability to estimate time accurately emerges earlier than the pioneering psychologists thought. As we will discover, infants with only limited conceptual capacities are able to discriminate different durations.
