got disconnected but the switch is power up and running but it is not showing in the switch configuration, we have to reboot both switches to get it online. can anyone help me what was the issue.

Catalyst 4500 Series Switch VSS Member Issue - Cisco Community
The Cisco Virtual Switching System is a clustering technology that pools two Cisco Catalyst 4500-E Series Switches with Cisco Catalyst Supervisor Engine 7-E or 7-LE or two Catalyst 4500-X Series Switches into a single virtual switch. In a VSS, the data plane of both clustered switches is active at the same time in both chassis.

Virtual switching system (VSS) Configuration For Cisco ...
The 3750/4500 switches work on a hardware level for the performance factor so they do not have this type of capability.
