

Colloidal Silver Medical Uses Toxicology Manufacture [PDF ...

The medical uses of silver include its use in wound dressings, creams, and as an antibiotic coating on medical devices. Wound dressings containing silver sulfadiazine or silver nanomaterials may be used on external infections. The limited evidence available shows that silver coatings on endotracheal breathing tubes may reduce the incidence of ventilator-associated pneumonia. There is tentative evidence that using silver-alloy indwelling catheters for short-term catheterizing will reduce the risk

Books - Colloidal Silver Generators from SciTron Healing ...

Researchers found that colloidal silver rinses demonstrated a good safety profile with no major adverse events. A lab study published in Particle and Fibre Toxicology found that when the human lung is exposed to silver nanoparticles, it does not cause adverse effects. Lung cells were only sensitive to high silver-ion concentrations.
