M. Stirling. Its point of divergence occurs when the empire of Alexander the Great endures long after Alexander's death, creating a markedly different history that prevents the European conquest of the Americas. Most of the story is set in the parallel universe affected by this history.

Conquistador is an intriguing combination of conservation and conservatism, which seems rare in an age when conservatism often means placing corporations in charge of their own ecological policing, however, Stirling makes the combination work. While his characters do not seem to have any need for liberals, Stirling is able to show how social liberalism has made inroads into modern society over the last sixty years in a way that demonstrates it as a cause for the positive, even as his ...

Conquistador by S. M. Stirling - Books on Google Play

Fans of S.M. Stirling don't need to read this review. If you haven't already bought this book, you certainly will. Stirling is right up there with Harry Turtledove when it comes to the sf subgenre of Alternate History, and Conquistador will no doubt continue his rise in this growing field. The basic premise is that back in 1946 John Rolfe, a WWII veteran, stumbles upon a gateway to an alternate universe (thus mining the same golden territory as Robert A. Metzger's Picoverse, Robert Sawyer's ...

Conquistador by SM Stirling - an infinity plus review

These sorts of tales never went away, and one such example of the former type is Conquistador by S.M Stirling. However, its high concept is poorly served by a lack of focus on the literal worldbuilding inherent in the plot, which itself leaves a lot to be desired and is populated by characters that are not given much depth.

“ In this luscious alternative universe, sidekicks quote the Lone Ranger and Right inevitably triumphs with panache. What more could adventure-loving readers ask for? ” —Publishers Weekly Oakland, 1946. Ex-soldier John Rolfe, newly back from the Pacific, has made a fabulous discovery: A portal to an alternate America where Europeans have never set foot—and the only other humans in sight are a band of very curious Indians. Able to return at will to the modern world, Rolfe summons the only people with whom he is willing to share his discovery: his war buddies. And tells them to bring their families... Los Angeles, twenty-first century. Fish and Game warden Tom Christiansen is involved in the bust of a smuggling operation. What he turns up is something he never anticipated: a photo of authentic Aztec priests decked out in Grateful Dead T-shirts, and a live condor from a gene pool that doesn ’ t correspond to any known in captivity or the wild. It is a find that will lead him to a woman named Adrienne Rolfe—and a secret that ’ s been hidden for sixty years...

The discovery of an alternate nation through a secret portal provokes John Rolfe to establish power in this kingdom of "New Virginia," but sixty years later in 2009, the land runs the risk of being overtaken. Reprint.

“ Utterly engaging...a page-turner that is certain to win the author legions of new readers and fans. ” —George R. R. Martin, author of A Game of Thrones It's spring on Nantucket and

everything is perfectly normal, until a sudden storm blankets the entire island. When the weather clears, the island's inhabitants find that they are no longer in the late twentieth century...but have been transported instead to the Bronze Age! Now they must learn to survive with suspicious, warlike peoples they can barely understand and deal with impending disaster, in the shape of a would-be conqueror from their own time.

In the mid-1870s, a violent spray of comets hits Earth, decimating cities, erasing shorelines, and changing the world's climate forever. And just as Earth's temperature dropped, so was civilization frozen in time. Instead of advancing technologically, humanity had to piece itself back together... In the twenty-first century, boats still run on steam, messages arrive by telegraph, and the British Empire, with its capital now in Delhi, controls much of the world. The other major world leader is the Czar of All the Russias. Everyone predicts an eventual, deadly showdown. But no one can predict the role that one man, Captain Athelstane King, reluctant spy and hero, will play...

THINK ABOUT HISTORY. NOW MAKE IT WORSE . . . The Domination of the Draka begins as a British possession in Africa, but soon becomes far more. Absorbing refugees after the American Revolution, and later the Civil War, the Draka become a people bred to rule with an iron fist. They permanently enslave the peoples of Africa, when they do not simply kill them. But this does not slake the Draka thirst for power. Sweeping across the world, the Draka empire engulfs nation after nation, shackling into servitude all who are not Draka. Europe, Asia, and finally all the Earth and its colonies throughout the Solar System fall before the

Access Free Conquistador Sm Stirling

might of the Draka. But empires are not faceless monoliths; they are made of individuals, complex humans with their own hopes and dreams. And so one might ask: Who are the Draka? What sort of people does the Domination rule? The Draka would have many different answers. and this is their story. At the publisher's request, this title is sold without DRM (Digital Rights Management). " . . . an exciting, evocative [and] horrifying read." ³/₄Poul Anderson "A vivid alternate reality . . . truly a tour de force." ³/₄David Drake "A potent, unflinching look at a might-have-been world whose evil both contrasts with and reflects that in our own." ³/₄Publishers Weekly ". . . superb action scenes, interesting characters, and a detailed if somewhat grisly world." ³/₄Chicago Sun-Times

From S. M. Stirling, the “ master of speculative fiction ” (Library Journal) and the author of the New York Times bestselling Novels of the Change, comes a new vision, as a man battles the dark forces of the world—including those in his own blood... Aeons ago, Homo nocturnus ruled the Earth. Possessing extraordinary powers, they were the source of all manner of myths and legends. Though their numbers have been greatly reduced, they exist still—though not as purebreds. Adrian Brézé is one such being. Wealthy and reclusive, he is more Shadowspawn than human. He rebelled against his own kind, choosing to live as an ordinary man, fighting against his darker nature. But Adrian ’ s sister is determined to bring back the reign of the Shadowspawn, and now she has struck him at his weakest point by kidnapping his human lover, Ellen. To save Ellen—and perhaps all of humanity—Adrian must rejoin a battle he swore he would never fight again.

Access Free Conquistador Sm Stirling

Ten years after all of Earth's technology had been rendered useless by the Change, two thriving communities in Oregon's Willamette Valley are confronted by a dangerous new challenge when the totalitarian Protectorate prepares to seek control over their priceless farmland. Reprint.

“ This new novel of the Change is quite probably the finest by an author who has been growing in skill and imagination for more than twenty-five years. ” – Booklist (Starred Review) Rudi Mackenzie has journeyed long and far across the land that was once the United States of America, seeking the shore where the sun rises, hoping to find the source of the world-altering event that has come to be known as the Change. His quest ends in Nantucket, an island overrun with forest, inhabited by a mere two hundred people, who claim to have been transported there from out of time. Only one odd stone house remains standing. Within it, Rudi finds a beautifully made sword seemingly waiting for him. And once he takes it up, nothing for Rudi—or for the world that he knows—will ever be the same...

S. M. Stirling presents his first Novel of the Change, the start of the New York Times bestselling postapocalyptic saga set in a world where all technology has been rendered useless. The Change occurred when an electrical storm centered over the island of Nantucket produced a blinding white flash that rendered all electronic devices and fuels inoperable—and plunged the world into a dark age humanity was unprepared to face... Michael Pound was flying over Idaho en route to the holiday home of his passengers when the plane ' s engines inexplicably died, forcing a less than perfect landing in the wilderness.

Access Free Conquistador Sm Stirling

And as Michael leads his charges to safety, he begins to realize that the engine failure was not an isolated incident. Juniper McKenzie was singing and playing guitar in a pub when her small Oregon town was thrust into darkness. Now, taking refuge in her family ' s cabin with her daughter and a growing circle of friends, Juniper is determined to create a farming community to benefit the survivors of this crisis. But even as people band together to help one another, others are building armies for conquest...

Marc Vitrac was born in Louisiana in the early 1960's, about the time the first interplanetary probes delivered the news that Mars and Venus were teeming with life—even human life. At that point, the "Space Race" became the central preoccupation of the great powers of the world. Now, in 1988, Marc has been assigned to Jamestown, the US-Commonwealth base on Venus, near the great Venusian city of Kartahown. Set in a countryside swarming with sabertooths and dinosaurs, Jamestown is home to a small band of American and allied scientist-adventurers. But there are flies in this ointment – and not only the Venusian dragonflies, with their yard-wide wings. The biologists studying Venus's life are puzzled by the way it not only resembles that on Earth, but is virtually identical to it. The EastBloc has its own base at Cosmograd, in the highlands to the south, and relations are frosty. And attractive young geologist Cynthia Whitlock seems impervious to Marc's Cajun charm. Meanwhile, at the western end of the continent, Teesa of the Cloud Mountain People leads her tribe in a conflict with the Neanderthal-like beastmen who have seized her folk's sacred caves. Then an EastBloc shuttle crashes nearby, and the beastmen acquire new knowledge... and AK47's. Jamestown sends its long-range blimp to rescue the downed EastBloc cosmonauts, little

Access Free Conquistador Sm Stirling

suspecting that the answer to the jungle planet's mysteries may lie there, among tribal conflicts and traces of a power that made Earth's vaunted science seem as primitive as the tribesfolk's blowguns. As if that weren't enough, there's an enemy agent on board the airship... Extravagant and effervescent, *The Sky People* is alternate-history SF adventure at its best. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
