Decision modelling for health economic evaluation In financially constrained health systems across the world, increasing emphasis is being placed on the ability to demonstrate that health care interventions are not only effective, but also cost-effective.

**Decision modelling for health economic evaluation** - **Centre** - **...**

In financially constrained health systems across the world, increasing emphasis is being placed on the ability to demonstrate that health care interventions are not only effective, but also cost-effective. This book deals with decision modelling techniques that can be used to estimate the value for money of various interventions including medical devices, surgical procedures, diagnostic ...

**Decision Modelling for Health Economic Evaluation** - **Andrew** - **...**

This obviously poses a challenge when conducting health economic analyses for service guidance, but it will also be difficult with respect to the quality and lack of evidence of effectiveness for service configurations, and so modelling will usually be needed to generate the health benefits used within the health economic analyses using scenario analyses.

**10 Modelling and health economics considerations** | **Interim** - **...**

It is designed for participants who are familiar with basic decision modelling who wish to learn how to use more advanced modelling methods. It is envisaged that participants will currently be undertaking modelling for health economic evaluation.

**Decision Analytic Modelling for Economic Evaluation** - **...**

The Health Economics Research Centre (HERC) HERC was established by the University of Oxford in 1996. Our aim is to contribute to health and healthcare in the UK and internationally, by conducting research on economic aspects of health and disease, the costs and benefits of prevention and treatment, and the design and evaluation of health systems.
