Provides information on tools, ropes, knots, ladders, and other equipment and supplies needed for building a tree house, and offers five basic designs that can be built.

The epic made simple. The miracle in the mundane. One day, while browsing an antique store in Helena, Montana, photographer Tyler Knott Gregson stumbled upon a vintage Remington typewriter for sale. Standing up and using a page from a broken book he was buying for \$2, he typed a poem without thinking, without planning, and without the ability to revise anything. He fell in love. Three years and almost one thousand poems later, Tyler is now known as the creator of the Typewriter Series: a striking collection of poems typed onto found scraps of paper or created via blackout method. Chasers of the Light features some of his most insightful and beautifully worded pieces of work—poems that illuminate grand gestures and small glimpses, poems that celebrate the beauty of a life spent chasing the light.

Learn how to craft breathtaking fairy homes exclusively from elements found in nature, step by step, from master fairy house architect Sally J. Smith—photos of dozens of her magical miniature creations provide abundant inspiration for crafters and fantasy fanciers interested in a creative challenge. Imagine a fairy home that has dragonfly wings as stained-glass windows, twigs for window frames, birch bark for walls, and dried mushrooms for shingles—with Fairy Houses, you can create one in your own garden. Browse gorgeous photographs of fairy houses in nature, then: Design your home following the outlined steps Gather tools and materials Create magical fairy house components, including intricately detailed doors and windows Put it all together to create your own unique fairy house Add lighting and interiors Add finishing touches, like a bark roof covering or a stone pathway The final chapter gives step-by-step photo instructions on how to construct two different fairy homes. Both an inspiring gallery of art and a practical how-to guide, Fairy Houses will open new doors of creativity for you as you are transported to the magical realm where fairies live.

Leading landscape photographers Diane Cook and Len Jenschel present *Wise Trees*—a stunning photography book containing more than 50 historical trees with remarkable stories from around the world. Supported by grants from the Expedition Council of the National Geographic Society, Cook and Jenschel spent two years traveling to fifty-nine sites across five continents to photograph some of the world's most historic and inspirational trees. Trees, they tell us, can live without us, but we cannot live without them. Not only do trees provide us with the oxygen we breathe, food gathered from their branches, and wood for both fuel and shelter, but they have been essential to the spiritual and cultural life of civilizations around the world. From Luna, the Coastal Redwood in California that became an international symbol when activist Julia Butterfly Hill sat for 738 days on a platform nestled in its branches to save it from logging, to the Bodhi Tree, the sacred fig in India that is a direct descendent of the tree under which Buddha attained enlightenment, Cook and Jenschel reveal trees that have impacted and shaped our lives, our traditions, and our feelings about nature. There are also survivor trees, including a camphor tree in Nagasaki that endured the atomic bomb, an American elm in Oklahoma City, and the 9/11 Survivor Tree, a Callery pear at the 9/11 Memorial. All of the trees were carefully selected for their role in human dramas. This project both reflects and inspires awareness of the enduring role of trees in nurturing and sheltering humanity. Photographers, environmentalists, history buffs, and nature-lovers alike will appreciate the extraordinary stories found within the pages of *Wise Trees*!

Founded in 1957, Chase's observes its 60th anniversary with the 2018 edition! Users will find everything worth knowing and celebrating for each day of the year: 12,500 holidays, historical milestones, famous birthdays, festivals, sporting events and much more. "One of the most impressive reference volumes in the world."--Publishers Weekly.

Rob Gonsalves—master of magical realism—presents another mesmerizing picture book in his *Imagine a...* series, that will “stimulate wonder and imagination” (Booklist, starred review). Imagine a world where the sky becomes the Earth; where a waterfall freefalls to become dancing women; where you can cut mountains out of curtains, and ships sail into the sky. This amazing world is what Rob Gonsalves has created. His vision inspires and astounds—and he wants to share that vision with you. With stunning illustrations that stretch the limits of the imagination, this fourth installment in the *Imagine a...* series explores a world that is boundless and beautiful, inviting you to imagine a world of possibilities—to imagine this world.
