A December 2019 Indie Next Pick! Set against the Frankfurt Auschwitz Trials of 1963, Annette Hess's international bestseller is a harrowing yet ultimately uplifting coming-of-age story about a young female translator—caught between societal and familial expectations and her unique ability to speak truth to power—as she fights to expose the dark truths of her nation's past. If everything your family told you was a lie, how far would you go to uncover the truth? For twenty-four-year-old Eva Bruhns, World War II is a foggy childhood memory. At the war's end, Frankfurt was a smoldering ruin, severely damaged by the Allied bombings. But that was two decades ago. Now it is 1963, and the city's streets, once cratered are smooth and paved. Shiny new stores replace scorched rubble. Eager for her wealthy suitor, Jürgen Schoormann, to propose, Eva dreams of starting a new life away from her parents and sister. But Eva's plans are turned upside down when a fiery investigator, David Miller, hires her as a translator for a war crimes trial. As she becomes more deeply involved in the Frankfurt Trials, Eva begins to question her family's silence on the war and her future. Why do her parents refuse to talk about what happened? What are they hiding? Does she really love Jürgen and will she be happy as a housewife? Though it means going against the wishes of her family and her lover, Eva, propelled by her own conscience, joins a team of fiery prosecutors determined to bring the Nazis to justice—a decision that will help change the present and the past of her nation.

Ever since Einstein's study of Brownian Motion, scientists have understood that a little disorder can actually make systems more effective. But most people still shun disorder-or suffer guilt over the mess they can't avoid. No longer! With a spectacular array of true stories and case studies of the hidden benefits of mess, A Perfect Mess overturns the accepted wisdom that tight schedules, organization, neatness, and consistency are the keys to success. Drawing on examples from business, parenting, cooking, the war on terrorism, retail, and even the meteoric career of Arnold Schwarzenegger, coauthors Abrahamson and Freedman demonstrate that moderately messy systems use resources more efficiently, yield better solutions, and are harder to break than neat ones. Applying this idea on scales both large (government, society) and small (desktops, garages), A Perfect Mess uncovers all the ways messiness can trump neatness, and will help you assess the right amount of disorder for any system. Whether it's your company's management plan or your hallway closet that bedevils you, this book will show you why to say yes to mess.

THROUGH the centuries, Chinese women have had to struggle under a load of injustices—denial of education, ineligibility to sit the civil service examinations and hold official posts, female infanticide, selling of daughters, concubinage, foot binding—just to name a few. They had largely remained silent because they did not have a voice. As China descended to abject poverty in the nineteenth century, the lot of Chinese women became even worse. When Chinese women came to Malaysia (Malaya then) largely from the nineteenth century onwards, the circumstances became different. Under British law, they were the equal of men, but social conditions took some time to evolve. For instance, daughters were left out of inheritance until quite recently, sons received preferential treatment in education and polygamy was declared illegal only in the 1930s. But Chinese women became successful entrepreneurs through their own ability, and, through education, many of them became distinguished professionals. Phoenix Rising, Pioneering Chinese Women of Malaysia is the story of Chinese women who have immigrated to this country and forged independent lives different from their lives in China. They have shown courage, resilience and determination in improving their lives. Like the phoenix, the mythological bird that symbolises the Chinese woman, they are set to soar to greater heights given equal opportunities and just social conditions.
