Hospitality Finance and Accounting provides a uniquely concise, accessible and comprehensive introduction to hospitality, finance and accounting from a managerial perspective. By avoiding unnecessary jargon and focusing on the essentials, this book offers a crucial breakdown of this often overly-complex subject area. The concise chapters cover the essential concepts, ideas and formulas to be mastered within the hospitality industry including income statements, balance sheets, pricing and budgeting. Each chapter is split into two sections: theory and practice, giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios. Emphasis is placed particularly on the practices of revenue and budget management within the food and beverage industry. This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry.

All good managers working in sport need to have a clear understanding of the principles of finance and accounting. Whether working in the private, public or voluntary sectors, a firm grasp of the basic concepts and techniques of financial management is essential if a manager is to make effective decisions and to implement those decisions successfully. Managing Sport Finance is the first book to offer a comprehensive introduction to financial management and accounting specifically designed for managers working in sport. The book assumes no prior knowledge of finance or accounting on the part of the reader. It clearly and succinctly guides the reader through each key concept and practical technique, including: balance sheets income statements costing systems and decision making investment appraisal budgeting and budgetary control double entry bookkeeping funding for sport interpreting annual reports. Using a rich variety of case studies, examples and data from the real world of sport management, the book places each concept into a managerial context, ensuring that the reader understands why that concept is important and how best to employ each technique. Each chapter also contains a range of useful features, including chapter introductions, learning objectives, activities, summaries, review questions and further reading. This is the most useful, comprehensive and accessible introduction to financial management for sport currently available and is essential reading for any student of sport management or sport development.

This is the first comprehensive introduction to the concepts, theories, and applications of pricing and revenue optimization. From the initial success of "yield management" in the commercial airline industry down to more recent successes of markdown management and dynamic pricing, the application of mathematical analysis to optimize pricing has become increasingly important across many different industries. But, since pricing and revenue optimization has involved the use of sophisticated mathematical techniques, the topic has remained largely inaccessible to students and the typical manager. With methods proven in the MBA courses taught by the author at Columbia and Stanford Business Schools, this book presents the basic concepts of pricing and revenue optimization in a form accessible to MBA students, MS students, and advanced undergraduates. In addition, managers will find the practical approach to the issue of pricing and revenue optimization invaluable. Solutions to the end-of-chapter exercises are available to instructors who are using this book in their courses. For access to the solutions manual, please contact marketing@www.sup.org.
