These are genuine John Deere shock absorbers that have been removed from a new John Deere HPX, 620i, 850d or similar Gator that uses AM137957 struts. These are commonly replaced with heavy duty struts when the Gator is equipped with a snow blade or cab. The item "New, take off's!

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed

fully with specifications and measurements, prices, production figures, standard equipment and more.

This beautiful book is an encyclopedic, behind-the-scenes look at how the machines were designed and built containing examples of every model line built by John Deere since 1919. Matching the strong visuals is an in-depth history that includes interviews with the engineers, industrial designers, and other Deere & Co. people who designed, built, and sold the machines.

As the European Union (EU) launches its common currency (the Euro), Central European (CE) nations are searching for best practices in public liability management in order to smooth their integration into the EU. This work addresses that concern, examining borrowing policies, institution building, portfolio optimization, and the implications of the Euro and EU accession for public debt management. To help the CE countries achieve their goals, the World Bank and the European Commission held a two-day seminar in Brussels in mid-December 1997. European Union Accession presents the papers delivered at that seminar which was attended by all ten EU applicant countries: Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, the Slovak Republic, and Slovenia. The workshop pursued the following goals: 1. to investigate the implications of the launch of the Euro and of the EU accession on fiscal prudence and on the borrowing strategies of CE countries; 2. to facilitate the dissemination of the best public liabilities management techniques developed worldwide; and 3. to explore plausible arrangements to promote prudent public liabilities management in

Central Europe through a regional expertise network.

Describes the successful laying of a cable across the Atlantic Ocean in 1866, exploring the physical, financial, and technological challenges of the project and assessing the impact of the cable on the course of twentieth-century history.

Jimmy was only nine years old when he was molested and sexually assaulted in London's dingy East End. He struggled to keep his dark secret, while coping with being adopted and his illiterate father's violent outbursts. Desperately needing to be loved, Jimmy accepts an offer of 'conditional kindness' from Tom, his scoutmaster. Now, after a lifetime of secrets, his story can be told as Tom is now dead, so.... "They Can't Touch Him Now"

World Bank Discussion Paper No. 302. Presents an alternative way of financing development in Sub-Saharan Africa in order to address the shortcomings of past investment lending. This study discusses sector investment programs (SIPs) as an alternative way of financing development in Sub-Saharan Africa in order to address the shortcomings of past investment lending in the region. The report examines the nature and features of SIPs by drawing on the limited experience with such operations in a number of countries to date, including Bangladesh, Mozambique, Pakistan, Tanzania, and Zambia. A SIP is distinguished by its comprehensive sector coverage, by close coordination among all parties, including stakeholders and donors,

and by the requirement that it be formulated under local ownership and management

General Keith Kellogg saw it all. The only national security advisor to work side by side with both President Trump and Vice President Pence, he was their confidant as they made their most momentous decisions. No one knows better than he that the hysterical accusations of the administration's partisan detractors were unconnected to reality. Demolishing baseless caricatures of Donald Trump, General Kellogg provides one of the few reliable accounts of the administration from the earliest days of the 2016 campaign to the end of the president's term. Kellogg reveals: How Trump's "America First" policies strengthened the nation after Obama's eight-year apology tour Why the president's tough approach to China worked—and why future administrations must continue to take the China threat seriously How withdrawal from the Iran nuclear deal and the strike on General Soleimani slowed the spread of radical Islamist terror Why Democrats' appeasement policies are courting disaster for America and the world The radicals attacking President Trump's legacy are sacrificing sound policy to politics. Kellogg's account is an urgently needed reminder that politics is "war by other means." Our enemies never forget that, and Americans forget it to their peril.

The de Havilland Tiger Moth biplane is an iconic and instantly recognisable aircraft. It is also one of a handful of planes that attracts the widest possible recognition outside the specialist group. Of nearly 10,000 built, it is thought that more than 1,000 Tiger Moths still survive over six decades on, and over half remain airworthy. They are .....
