Adoption is one of the oldest social institutions. Nevertheless, adoption still raises highly emotive issues because of its fundamental implications for the familial ties. This publication provides a solid foundation for furthering research on child adoption and, more specifically, on the demographic factors that shape the demand for and the availability of adoptable children. The focus of this report is on the nexus between adoption policies and trends at the national and global levels. Understanding adoption policies and their origins is all the more important today because, as adoption has become global, inconsistencies among the legal principles and traditions regarding adoption in different countries are increasingly coming to the fore.--Publisher'sdescription.

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

Hindutva Regime in Assam: Saffron in the Rainbow analyses the Bharatiya Janata Party's (BJP) strategy of appropriating cultural resources in Assam while pursuing the Hindutva agenda. In Assam, where numerous ethnic and regional political outfits have registered their electoral presence, the 'Rainbow Alliance' emerged as the dominant strategic tool for BJP in its electoral battles. The book studies how BJP has capitalized on people's attachment to their ethno-regional cultures and has successfully co-opted and 'saffronized' the 'Rainbow' by bringing together diverse ethnic groups into its fold. Scrutinizing electoral strategies, BJP's victories in 2014, 2016 and 2019, and the efforts towards dismantling consensus around the National Register of Citizens (NRC) by enacting the Citizenship Amendment Act (CAA), the book provides a holistic view of this steady 'saffronization'. It also critically investigates BJP's populist development agenda. From the Rashtriya Swayamsevak Sangh's (RSS) grassroots work to the government's policy initiatives, the book analyses the regime's performance and ideological pursuits in depth. It highlights how BJP's strategies in Assam are unique in some ways and how similar strategies can be seen elsewhere in India.

This open access monograph provides an overview of the everyday lives of undocumented migrants, thereby focusing on housing, employment, social networks, healthcare, migration trajectories as well as their use of the internet and social media. Although the book's empirical focus is Finland, the themes connect the latter to broader geographical scales, reaching from global migration issues to the EU asylum policies, including in the post-2015 situations and during the COVID-19 pandemic, as well as from national, political, and societal issues regarding undocumented migrants to the local challenges, opportunities, and practices in municipalities and communities. The book investigates how one becomes an undocumented migrant, sometimes by failing the asylum process. The book also discusses research ethics and provides practical guidelines and reflects on how to conduct quantitative, qualitative, and mixed methods research about undocumented migrants. Finally, the book addresses emerging research topics regarding undocumented migrants. Written in an accessible

As the international standard, the Manual serves as a guide for IMF member countries that regularly report balance of payments data to the IMF. The Manual contains significantly expanded and restructured coverage of financial flows and stocks and international transactions in services. Harmonization with the System of National Accounts and other IMF statistical systems is also greatly increased.
