Mudlarking, the act of searching the Thames foreshore for items of value, has a long tradition in England's capital. In the late 18th and 19th centuries, mudlarks were small boys grubbing a living from scrap. Today's mudlarks unearth relics of the past from the banks of the Thames which tell stories of Londoners throughout history.

The life of a London mudlark is unique. Intrepid Londoners with a taste for history or archaeology have the option of pulling on their wellies and going down into the foreshore of the Thames -- the part of the edge of the river that is underwater 12 hours of every 24 -- and seeing what bits of history have come to light since the day before.

'The Mud-lark' from Henry Mayhew's "London Labour and the London Poor" (RMG ID: PBF5076) According to Mayhew, most mudlarks lived near the river and would gather by the river banks when the tide started to ebb. When the water level was low enough, they would disperse and commence their labours among the vessels moored on the river's edge.
