~~Max Contraction Training: The Scientifically Proven ...~~

Max Contraction weight training is a quick way to build muscle mass with only 15 minutes in the gym once to twice a week. You lift heavy weights slowly until muscle failure which is a little painful. You can only do between 3 and 5 exercises a session and each exercise lasts between 60 to 90 seconds each.

~~Max Contraction Training : The Scientifically Proven ...~~

Max Contraction Training : The Scientifically Proven Program for Building Muscle Mass in Minimum Time by John Little is a much better book than Static Contraction Training. Instead of being light on text and heavy on photos of steroid monsters, this book dives into the details of how to use static holds to trigger muscle growth.

~~Max Contraction Training - Critical MAS~~

Max Contraction weight training is a quick way to build muscle mass with only 15 minutes in the gym once to twice a week. You lift heavy weights slowly until muscle failure which is a little painful. You can only do between 3 and 5 exercises a session and each exercise lasts between 60 to 90 seconds each.

We have used static and Max-Contraction training (including max pyramid protocol) extensively at Ideal Exercise. It is a very productive training method and particularly effective for working around limitations in machines with a less than ideal resistance curve.

~~Static Contraction Training—Critical MAS~~

With Omega Set training you can gain as much as 18 pounds of lean, hard muscle in as little as 4 weeks--without fad diets, supplements, or anabolic drugs. Taking bodybuilding pioneer John Little's Max Contraction Training to a whole new level of intensity, this science-based system is specifically engineered for advanced bodybuilders who demand results measured in pounds and inches of pure muscle.

~~Advanced Max Contraction Training: Amazon.co.uk: Little ...~~

In my new book Max Contraction Training: The Scientifically Proven Program for Building Muscle Mass in Minimum Time (New York: McGraw-Hill Publishing, 2004) I present a revolutionary training system. The premise of the Max Contraction system is that there is one place in a muscle's given range of motion that, coupled with adequate resistance, recruits more muscle fibers than any other position—the position of full, or maximum, contraction.

Based on the authors' groundbreaking new research, "Static Contraction Training" reveals how a program consisting of only six 15- to 30-second exercises per workout will build muscle size and strength more efficiently than any other method. Learn firsthand, the concepts that are revolutionizing bodybuilding, including: Why training more than once a week - or longer than five minutes - can compromise your progress?
