This edited volume brings together original sociolinguistic and cultural contributions on food as an instrument to explore diasporic identities. Focusing on food practices in cross-cultural contact, the authors reveal how they can be used as a powerful vehicle for positive intercultural exchange either though conservation and the maintenance of cultural continuity, or through hybridization and the means through which migrant communities find compromise, or even consent, within the host community. Each chapter presents a fascinating range of data and new perspectives on cultures and languages in contact: from English (and some of its varieties) to Italian, German, Spanish, and to Japanese and Palauan, as well as an exemplary range of types of contact, in colonial, multicultural, and diasporic situations. The authors use a range of integrated approaches to examine how socio-linguistic food practices can, and do, contribute to identity construction in diverse transnational and diasporic contexts. The book will be of particular interest to students and scholars of translation, semiotics, cultural studies and sociolinguistics.

Deb Perelman loves to cook. She isn’t a chef or a restaurant owner—she’s never even waitressed. Cooking in her tiny Manhattan kitchen was, at least at first, for special occasions—and, too often, an unnecessarily daunting venture. Deb found herself overwhelmed by the number of recipes available to her. Have you ever searched for the perfect birthday cake on Google? You’ll get more than three million results. With the same warmth, candor, and can-do spirit her award-winning blog, Smitten Kitchen, is known for, here Deb presents more than 100 recipes—almost entirely new, plus a few favorites from the site—that guarantee delicious results every time. Gorgeously illustrated with hundreds of her beautiful color photographs, The Smitten Kitchen Cookbook is all about approachable, uncompromised home cooking. Here you’ll find better uses for your favorite vegetables: asparagus blanketing a pizza; ratatouille dressing up a sandwich; cauliflower masquerading as pesto. These are recipes you’ll bookmark and use so often they become your own, recipes you’ll slip to a friend who wants to impress her new in-laws, and recipes with simple ingredients that yield amazing results in a minimum amount of time. Deb tells you her favorite summer cocktail; how to lose your fear of cooking for a crowd; and the essential items you need for your own kitchen. This volume presents nineteen studies by specialists in the field of Greek lexicography. A number of papers deal with historical aspects of Greek lexicography covering all phases of the language, i.e. ancient, medieval and modern, as well as the interrelations of Greek to neighboring languages. In addition, other papers address more formal issues, such as morphological, semantic and syntactic problems that are relevant to the study of Greek lexicography, as well as the study of individual words. Finally, in one study the problem of technical linguistic terminology is addressed along with the methodological, epistemological and other issues relating to the particular problem. The work is of special interest to scholars on the long standing problems of diachronic semantics, historical morphology and word formation, and to all those interested in etymology and the study of words of the Greek language.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The immigrant tenants of a building in Rome offer skewed accounts of a murder in this prize-winning satire by the Algerian-born Italian author (Publishers Weekly). Piazza Vittorio is home to a polyglot community of immigrants who have come to Rome from all over the world. But when a tenant is murdered in the building’s elevator, the delicate balance is thrown into disarray. As each of the victim’s neighbors is questioned by the police, readers are offered an all-access pass into the most colorful neighborhood in contemporary Rome. With language as colorful as the neighborhood it describes, each character takes his or her turn “giving evidence.” Their various stories reveal much about the drama of racial identity and the anxieties of a life spent on society’s margins, but also bring to life the hilarious imbroglios of this melting pot Italian culture. “Their frequently wild testimony teases out intriguing psychological and social insight alongside a playful whodunit plot.” —Publishers Weekly
