I messaged my ex-colleagues and friends. This was difficult since it made everyone know that I was unemployed, but I decided to not care about it. I just want a job, what's wrong with that? I dropped a message in startup groups, more specifically: e27's Telegram group (I got hired by a startup founder who saw my message in the group). You ...

How I got hired as a UI/UX designer without experience ...

Shortly after I was made redundant, my ex-employer ran an ad for a post similar to mine. What should I do? If you were made redundant - that is, you were told that your job was no longer needed - but you get clear evidence later that this was not the case, you may be able to claim unfair dismissal.

What happens when the ex-boyfriend that threw her away becomes her co-worker!? Kaho feels familiar feelings stirring in her heart when the two are alone and he starts to caress her. Vol.1, 62pages.
--

National Bestseller Best Book of the Year: NPR, Shelf Awareness "I didn't know how much I needed a laugh until I began reading Stephen McCauley's new novel, My Ex-Life. This is the kind of witty, sparkling, sharp novel for which the verb 'chortle' was invented." —Maureen Corrigan, Fresh Air “McCauley fits neatly alongside Tom Perrotta and Maria Semple in the category of ‘Novelists You'd Most Like to Drive Across the Country With.’” —The New York Times Book Review David Hedges's life is coming apart at the seams. His job helping San Francisco rich kids get into the colleges of their (parents') choice is exasperating; his younger boyfriend has left him; and the beloved carriage house he rents is being sold. His solace is a Thai takeout joint that delivers 24/7. The last person he expects to hear from is Julie Fiske. It's been decades since they've spoken, and he's relieved to hear she's recovered from her brief, misguided first marriage. To him, Julie definitely doesn't have a problem with marijuana (she's given it up completely, so it doesn't matter if she gets stoned almost daily) and the Airbnb she's running out of her seaside house north of Boston is neither shabby nor illegal. And she has two whole months to come up with the money to buy said house from her second husband before their divorce is finalized. She'd just like David's help organizing college plans for her seventeen-year-old daughter. That would be Mandy. To quote Barry Manilow, Oh Mandy. While she knows she's smarter than most of the kids in her school, she can't figure out why she's making so many incredibly dumb and increasingly dangerous choices? When David flies east, they find themselves living under the same roof (one David needs to repair). David and Julie pick up exactly where they left off thirty years ago—they're still best friends who can finish each other's sentences. But there's one broken bit between them that no amount of home renovations will fix. In prose filled with hilarious and heartbreakingly accurate one-liners, Stephen McCauley has written a novel that examines how we define home, family, and love. Be prepared to laugh, shed a few tears, and have thoughts of your own ex-life triggered. (Throw pillows optional.)

Imagine being plunged back into the single life in this day and age of modern technology. Gone is the club hopping or meeting someone in person. Single sites are popping up everywhere allowing people to meet much faster than ever before. Now you can sit in the comfort of your own home, chatting with the opposite sex on your computer telling them exactly what they've always wanted to hear. Holly Brunson had no idea that she had let a classic internet predator turn her world upside down.

"Mia and her uber-loyal best friend unknowingly start a healthy smoothie business out of a mobile snow cone truck while catfishing the ex-boyfriend who wronged her"--

One girl, on the run from her life, flees right into the arms of four boys from her past. Fleeing her abusive ex, a dead-end job and no prospects for anything better, Mia returns to the coastal town where she used to spend her summers as a kid. She hopes that going back to a time when things were easier will clear her head, but instead she runs right into the arms of the boys she loved as a teen. It starts with Dylan, the brainiac, now a maths teacher at a nearby secondary school. Then Mal, the joker, who plays guitar in a band and composes music. Then Tom, the protector, a single dad who works as a carpenter. And to make it even more complicated, Jake, the city boy, shows up, carrying the one secret Mia has been trying to hide from the others. But that's not where their problems end. There was one more person who used to be with them, Poppy, she was Mia's lover, Mal's twin, Tom's wife and mother of his child. Mia's arrival couldn't have come at a darker time with just over a week until the anniversary of Poppy's death and everyone is on edge. Can they finally come together, or will this explosive mix of emotions and love forever ruin them? These are all of the novellas (Her Escape, Their Struggle, Their Downfall, Her Undoing, Their Battle and Their Treasure) in the six-part long Scarred Cliff serial, a contemporary reverse harem #WhyChoose story. These novellas may include any of these elements: steamy scenes, 'I need tissues NOW' moments, cries of 'why, oh, why' and cliffhangers that make you bite your nails (and curse the author). This story includes MF and MM scenes. Author note: This series deals with topics which can be hard for some people, like abuse by a partner and the fallout of the suicide of a side character (which happened in the past but plays an important part in this story).

It's the trip of a lifetime - with just one catch!

"You'll always be by my side and I by yours." Those are the words said by the can-do-nothing-for-himself university professor Yukinari Nishina. His childhood friend Miyu enjoys nothing more than spending time with the man she has secretly always been I love with. But something has always bothered her. And that is the way he always tells her not to come see him after 9pm. She follows that until one day she simply has to go see him after 9 and as she enters his room she sees... a Yukinari like she has never seen before. He roughly grabs her and covers her ears, his hot breath falling on her ears. This isn't the man she fell in love with! She suddenly starts to both fear and want him and their relationships barriers quickly begin to crumble once she learns his secret.

****Now a USA Today Bestseller**** If your ex arrives in your hometown eighteen months after you walked out on him while you were eight months pregnant, follow this short list of rules before you give him a second chance. Rule #1 - Don't stand in the way of your brothers who want to rough him up. Rule #2 - Don't meet him for coffee and agree to allow him to meet your daughter. Rule #3 - Don't drool when your daughter falls asleep on his chest for the first time. It's just your ovaries talking. Rule #4 - Don't let him hold your hand. While we're at it, no hugs, no kisses on the cheek... just no physical contact in general. That only leads to remembering better times. The last one is the most important... Rule #5 - When you find yourself needing someone's help and you're tired of always asking your family, don't let him be the one who's there for you. Because all those good qualities of his will suck you right back in and you'll have no chance of fighting your feelings, especially now that he's ready to be a father to your daughter.

Shy Satsuki Shinohara's plan for a big high school debut are almost ruined by a pervert on the train, but she's saved by none other than the "gangster" student in her class, Yamaguchi-kun. He's already got a bad rap with the other students, and though Satsuki tries to approach him, he seems to always weasel out of her grasp. But she's not one to let a challenge daunt her, and she's out to prove that Yamaguchi-kun is so much more than he's cracked up to be.

A career guide for software testers, or an introduction for all who would like to move into the world of software testing. Short, to the point and not pulling any punches. Filled with humorous examples from my career and with tips and advices on how to survive in cruel world of software testing.
