The installation is easy, but they say unplug the white wire and then plug the white lockpick wire in. The problem is, I don't have a white wire in the back of the radio. Only the grey one which I already hooked up with the mygig. Basically I'm suppose to unplug the original male grey and white wires, then plug them into the female lockpick wires.

There was a time when magic was welcome in the country of Chahir, but that was nearly two centuries ago. Now, all forms of magic are strictly forbidden. Anyone caught using magic, or possessing magical abilities, are immediately imprisoned and executed. For Garth, that policy is a problem. As Garth approaches his sixteenth birthday, he realizes that he definitely has magical abilities. What's worse, he has no control over them. In order to stay alive, he only has one choice—he must leave his homeland, Chahir, and flee into the neighboring country, Hain. The journey isn't an easy one; he still has to make it out of Chahir without alerting anyone as to his abilities. What Garth doesn't know is that getting to Hain, and the Academy for All Magic, is going to be the easy part. Garth goes into Hain for one reason only; he wants training for his out-of-control magical powers. So how does he become a member of an exclusive magical clan known as the Jaunten; adopted by a magically enhanced colt; best friends with a gifted Witch; and foster brother of a four year old Mage? Let's just say he has a gift for finding trouble.

This paper presents an update to the Report on the Observance of Standards and Codes (ROSC) on Fiscal Transparency for Bangladesh. The paper discusses that the authorities have implemented a number of measures recommended in the ROSC, particularly those aimed at establishing reliable fiscal reports, and have moved toward establishing an effective basis for medium-term budgeting. Progress on longer-term issues with regard to improving reporting and control over quasi-fiscal activities of state-owned enterprises and strengthening government watchdog institutions will require continuing sustained effort.

[If only] Bran would stop acting weird....Probably he had a perfectly reasonable explanation for everything. I just couldn't imagine what it would be. When Britt's older brother, Bran, lands a summer job house-sitting for the Marquises, an elderly couple, it seems like a great opportunity. Britt and Bran have moved to Florida so their mother can finish college, and the house-sitting income will allow their mom to quit her job and take classes full-time. Having never lived in a real house before, Britt is thrilled. There's only one problem: Britt starts to suspect her family isn't supposed to be there. She's been noticing that Bran is acting weird and defensive -- he hides the Marquises' mail, won't let anyone touch the thermostat, and discourages Britt from meeting any of the neighbors. Determined to get to the bottom of things, Britt starts investigating and makes a startling discovery -- the Marquises aren't who Bran has led her and their mom to believe. So whose house are they staying in, and why has Bran brought them there? With unexpected twists and turns, award winner Margaret Peterson Haddix has again crafted a thriller that will grip readers until its stunning conclusion.
