This pupil's book has been created specifically for primary schools teaching a UK based curriculum. Written with an international focus, it is designed for primary pupils from a range of backgrounds to prepare them for studying science at secondary level.

This workbook has been created specifically for primary schools teaching a UK based curriculum. Written with an international focus, it is designed for primary pupils from a range of backgrounds to prepare them for studying science at secondary level.

Nelson English International teaches the skills and craft of quality writing, catering for the 6-12 year age range, and provides a six year programme of study. It is easily managed in the classroom, with three components at each level: a student textbook; a student workbook; and a teacher resource book. The student textbook gives a thorough coverage of the key skills of grammar, spelling, punctuation, comprehension and vocabulary building. The units are designed to build pupils' knowledge of these language skills and apply them in their written tasks, with the aim of writing effectively for a wide range of purposes. Planning, drafting, revising and editing copy are all covered in developing these writing skills. Students are also taught to understand the characteristics of different styles and forms of writing. .

This title provides full coverage of the Cambridge Primary Science Curriculum Framework and the series is endorsed by Cambridge International Examinations. The course is practically focused, scientifically rigorous and culturally sensitive, making it ideal for use in international schools around the world.
