The myths include: (1) the nuclear family is the only solid basis for society; (2) education empowers all citizens; (3) technology aids social and economic progress; (4) success is solely the product of hard work; (5) gender roles are biologically rather than culturally determined; and (6) America is a melting pot ...

Rereading America remains the most widely adopted book of its kind because it works: instructors tell us time and again that they've watched their students grow as critical thinkers and writers as they grapple with cross-curricular readings that not only engage them, but also challenge them to reexamine deeply held cultural assumptions, such as viewing success solely as the result of hard work. Extensive apparatus offers students a proven framework for revisiting, revising, or defending those assumptions as students probe the myths underlying them. Rereading America has stayed at the forefront of American culture, contending with cultural myths as they persist, morph, and develop anew. The tenth edition, developed with extensive input from users, features a refreshed collection of readings with a new chapter that introduces students to one of the most pervasive myths of our time: technological innovation fosters a more equal society. Also in response to instructors' requests for more writing instruction, there are now more questions that help students apply to their own writing the strategies used in the readings.

The unique collaborative effort of a professor of English and a professor of philosophy, Current Issues and Enduring Questions is an extensive resource for teaching argument, persuasive writing, and rigorous critical thinking. This extraordinarily versatile text and reader continues to address current student interests and trends in argument, research, and writing. Its comprehensive coverage of classic and contemporary approaches to argument includes Aristotelian, Toulmin, and a range of alternative views, including a new chapter on analyzing and writing about arguments in popular culture. Readings on contemporary controversies (including student loan debt, locavorism, and the boundaries of online privacy) and classical philosophical questions (such as How free is the will of the individual?) are sure to spark student interest and lively discussion and writing, and new e-Pages take advantage of what the Web can do by including videos, speeches, film trailers, and other multimodal arguments.

Winner of the Pulitzer Prize "Erudite, entertaining macroeconomic history of the lead-up to the Great Depression as seen through the careers of the West's principal bankers . . . Spellbinding, insightful and, perhaps most important, timely." —Kirkus Reviews (starred) "There is terrific prescience to be found in [Lords of Finance's] portrait of times past . . . [A] writer of great verve and erudition, [Ahamed] easily connects the dots between the economic crises that rocked the world during the years his book covers and the fiscal emergencies that beset us today." —The New York Times It is commonly believed that the Great Depression that began in 1929 resulted from a confluence of events beyond any one person's or government's control. In fact, as Liaquat Ahamed reveals, it was the decisions made by a small number of central bankers that were the primary cause of that economic meltdown, the effects of which set the stage for World War II and reverberated for decades. As we continue to grapple with economic turmoil, Lords of Finance is a potent reminder of the enormous impact that the decisions of central bankers can have, their fallibility, and the terrible human consequences that can result when they are wrong.

A haunted Argentinian mansion. A family curse. A twist you'll never see coming. Welcome to Vaccaro School. Simmering in Patagonian myth, The Tenth Girl is a gothic psychological thriller with a haunting twist. At the very southern tip of South America looms an isolated finishing school. Legend has it that the land will curse those who settle there. But for Mavi—a bold Buenos Aires native fleeing the military regime that took her mother—it offers an escape to a new life as a young teacher to Argentina's elite girls. Mavi tries to embrace the strangeness of the imposing house—despite warnings not to roam at night, threats from an enigmatic young man, and rumors of mysterious Others. But one of Mavi's ten students is missing, and when students and teachers alike begin to behave as if possessed, the forces haunting this unholy cliff will no longer be ignored... and one of these spirits holds a secret that could unravel Mavi's existence. An Imprint Book "Layered and challenging, and full to bursting with intelligence, while at the same time exuberantly bizarre, like it's having the best time on its own and daring you to join in." —Rory Power, New York Times–bestselling author of Wilder Girls "This book envelops the reader with sweeping beauty and tingling mystery from the very first page." —Nova Ren Suma, New York Times–bestselling author of The Walls Around Us

After waking up from a nightmare, a young boy is inexplicably drawn to a mysterious cave one night, and when he goes in, he discovers that the Librarian is trapped and in danger.

A motley crew of saboteurs wreak outrageous havoc on the corporations destroying America's Western wilderness in this classic, comic extravaganza. When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, The Monkey Wrench Gang is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all "praise the earth for Edward Abbey!"

"Outstanding . . . a wide-ranging invitation to think through the moral ramifications of our eating habits." —The New Yorker One of the New York Times Book Review's Ten Best Books of the Year and Winner of the James Beard Award Author of How to Change Your Mind and the #1 New York Times Bestseller In Defense of Food and Food Rules What should we have for dinner? Ten years ago, Michael Pollan confronted us with this seemingly simple question and, with The Omnivore's Dilemma, his brilliant and eye-opening exploration of our food choices, demonstrated that how we answer it today may determine not only our health but our survival as a species. In the years since, Pollan's revolutionary examination has changed the way Americans think about food. Bringing wide attention to the little-known but vitally important dimensions of food and agriculture in America, Pollan launched a national conversation about what we eat and the profound consequences that even the simplest everyday food choices have on both ourselves and the natural world. Ten years later, The Omnivore's Dilemma continues to transform the way Americans think about the politics, perils, and pleasures of eating.
