A Short Guide to Writing about History is an ideal complement for any history course intended to teach students to think and write like historians. This engaging and practical text will teach students how to go beyond reporting the basic dates and facts of their history books and show them how to infuse their writing with their own ideas and unique perspective. Covering brief essays and the documented resource paper, the text explores the writing and researching processes, different modes of historical writing (including argument), and offers guidelines for improving style as well as documenting sources.

With the Tao of Composition, no longer does producing a paper become a tedious process filled with endless redundancies and plagiarism. Now students can learn and apply a basic organizational structure to their writing without wondering how to construct the basic elements of any academic essay. No longer will you have to sit in front of the computer the night before the paper is due and regurgitate stream-of-consciousness drivel connected loosely with evidence.

Doing Collaborative Research in Psychology offers an engaging journey through the process of conducting research in psychology. Using an innovative team-based approach, this hands-on guide will assist undergraduates with their research—in their courses and in collaboration with faculty or graduate student mentors. The focus on this team-based approach reflects the collaborative nature of research methods and experimental psychology. Students learn how to work as a team, generate creative research ideas, design and pilot studies, recruit participants, collect and analyze data, write up results in APA style, and prepare and give formal research

presentations. Students also learn practical ways in which they can promote their research skills as they apply to jobs or graduate school. A unique feature to this book is the ability to read chapters of the text either sequentially or separately, which allows the instructor or research mentor the flexibility to assign those chapters most relevant to the current state of the research project.

With its process-oriented rhetoric, provocative thematic reader, up-to-date research manual, and comprehensive handbook, *The Bedford Guide for College Writers* gives your students the tools they need to succeed as writers -- all in one book. Each of the book's four main components has been carefully developed to provide an engaging, well-coordinated guide for student writers. This edition's new, more open design and sharper focus on active learning do even more to help students develop transferable skills. *The Bedford Guide for College Writers* prepares students to be the confident, resourceful, and independent writers they will need to be.

This comprehensive yet concise book provides a thorough and complete guide to every aspect of managing the peer review process for scientific journals. Until now, little information has been readily available on how this important facet of the journal publishing process should be conducted properly. *Peer Review and Manuscript Management in Scientific Journals* fills this gap and provides clear guidance on all aspects of peer review, from manuscript submission to final decision. *Peer Review and Manuscript Management in Scientific Journals* is an essential reference for science journal editors, editorial office staff and publishers. It is an invaluable

handbook for the set-up of new Editorial Offices, as well as a useful reference for well-established journals which may need guidance on a particular situation, or may want to review their current practices. Although intended primarily for journals in science, much of its content will be relevant to other scholarly areas. This wonderful work by Dr. Hames can be used as a textbook in courses for both experienced and novice editors, and I trust that it is what Dr. Hames intended when she prepared this beautiful book. Every scientific editor should read it. Journal of Educational Evaluation for Health Professionals, 2008 This book is co-published with the Association of Learned and Professional Society Publishers (ALPSP) (www.alpsp.org) ALPSP members are entitled to a 30% discount on this book.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins Teaching Writing is Lucy Calkins at her best-a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics-the writing process, conferring, kinds of writing, and writing assessment- she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these simple yet powerful teaching acts. Download a sample chapter for more information.

This comprehensive resource for STEM teachers and students, outlines the various stages of large-scale research projects, enabling teachers to coach their students through the research process. This handbook provides enough detail to embolden all teachersOCoeven those who have never designed an experiment on their ownOCoto support student-researchers through the entire process of conducting experiments."

Writing in the Social Studies is a practical guide for educators. On each page are strategies, tips, and takeaways for teachers to implement in their classroom, while every chapter concludes with helpful handouts to distribute directly to students. Beginning with a framework and pacing guide, Writing in the Social Studies examines foundational, academic, and real-world writing, concluding with a methodology for grading and a spirited plea for teachers to write themselves. Teachers who believe in teaching "skills through content" finally have a blueprint from which to work. Those who understand it is imperative students graduate with the ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.
