berjalan lancar. Pemilik rumah biasanya memercayakan pembuatan RAB ini kepada pemborong atau tukang. Namun, tak ada salahnya pemilik rumah menguasai cara penghitungan RAB ini agar tidak ditipu oknum pemborong atau tukang yang nakal. Buku ini memberi solusi agar penghitungan RAB menjadi lebih praktis dan mudah dilakukan orang awam sekalipun. Di dalamnya berisi panduan menggunakan aplikasi “ MENGHITUNG RAB ” yang terlampir dalam CD. Aplikasi ini berbasis program sederhana, Microsoft Excel, yang familiar di semua kalangan. Perhitungan dilakukan berdasarkan harga satuan material dan pekerja di lima kota besar: Bodetabek (Jakarta), Medan, Surabaya, Yogyakarta, dan Makassar. Harga tersebut dapat di-update sesuai kenaikan harga yang setiap

saat dapat terjadi. Miliki segera buku ini dan Anda pun akan pintar menghitung RAB dalam sekejap. SALAM GRIYA KREASI

Every city has its unique and valuable identity, this identity is revealed through its physical and visual form, it is seen through the eyes of its residents and users. The city develops over time, and its identity evolves with it. Reflecting the rapid and constant changes the city is subjected to, Architecture and Arts, is the embodiment of the cultural, historical, and economical characteristics of the city. This conference was dedicated to the investigation of the different new approaches developed in Architecture and Contemporary arts. It has focused on the basis of urban life

and identities. This volume provides discussions on the examples and tendencies in dealing with urban identities as well as the transformation of cities and urban cultures mentioned in terms of their form, identity, and their current art. Contemporary art, when subjected to experiments, continues to be produced in various directions, to be consumed and to put forward new ideas. Art continuously renews itself, from new materials to different means of communication, from interactive works to computer games, from new approaches to perceptual paradigms and problems of city and nature of the millennium. This is an Open Access ebook, and can be found on www.taylorfrancis.com.

The importance of small fishing craft to the world catch of fish cannot be underestimated but little attention has in the past been given to their design. The primary purpose of this book is to disseminate the specialized knowledge needed for designing improved small fishing vessels. It has been structured to cover every item which needs to be taken into account, working in easy stages from background material to the specification for a finished design. The logical and well-balanced format takes the reader through general principles to factors specific to fishing vessels and the content is so comprehensive that much will be of equal value to users and designers of larger vessels. It is an invaluable volume enhanced by detailed drawings of exceptional standard.

ICHSS is an international seminar that is held every two years organized by the Research and Community Service Institute of the State University of Malang. The meeting aims to discuss the theoretical and practical developments of Social Sciences and Humanities in Indonesia and other countries with a view to build academic networks by gathering academics from various research institutes and universities. Community empowerment serves as a trigger to increase community independence and to cope with the challenges resulting from the rapid development of technology. An important aspect of the community empowerment effort is to link the results of innovation research for the benefit of community. The results of

research should not only be limited to publications in the academic environment. Open Access to various forms of the existing literature is one of the requirements for innovative research to develop optimally. Therefore, this seminar has also served as a place for field researchers from various geographical areas to socialize, to discuss and to find solutions to current issues in the field of social sciences and humanities, as well as to build cooperation and synergy in creating ideas for mutual collaboration and to create joint research.

Be more effective with less effort by learning how to identify and leverage the 80/20 principle: that 80 percent of all our results in business and in life stem from a mere 20 percent of our efforts. The 80/20 principle is one of the great secrets of highly effective people and organizations. Did you know, for example, that 20 percent of customers account for 80 percent of revenues? That 20 percent of our time accounts for 80 percent of the work we accomplish? The 80/20 Principle shows how we can achieve much more with much less effort, time, and resources, simply by identifying and focusing our efforts on the 20 percent that really counts.

Although the 80/20 principle has long influenced today's business world, author Richard Koch reveals how the principle works and shows how we can use it in a systematic and practical way to vastly increase our effectiveness, and improve our careers and our companies. The unspoken corollary to the 80/20 principle is that little of what we spend our time on actually counts. But by concentrating on those things that do, we can unlock the enormous potential of the magic 20 percent, and transform our effectiveness in our jobs, our careers, our businesses, and our lives.

The quality and testing of materials used in construction are covered by reference to the appropriate ASTM standard specifications. Welding of reinforcement is covered by

reference to the appropriate AWS standard. Uses of the Code include adoption by reference in general building codes, and earlier editions have been widely used in this manner. The Code is written in a format that allows such reference without change to its language. Therefore, background details or suggestions for carrying out the requirements or intent of the Code portion cannot be included. The Commentary is provided for this purpose. Some of the considerations of the committee in developing the Code portion are discussed within the Commentary, with emphasis given to the explanation of new or revised provisions. Much of the research data referenced in preparing the Code is cited for the user desiring to study individual questions in greater detail. Other documents that

provide suggestions for carrying out the requirements of the Code are also cited.

"In this unique insight into the history and philosophy of mathematics and science in the mediaeval Arab world, the eminent scholar Roshdi Rashed illuminates the various historical, textual and epistemic threads that underpinned the history of Arabic mathematical and scientific knowledge up to the seventeenth century. The first of five wide-ranging and comprehensive volumes, this book provides a detailed exploration of Arabic mathematics and sciences in the ninth and tenth centuries. Extensive and detailed analyses and annotations support a number of key Arabic texts, which are translated here into English for the first time. In this volume

Rashed focuses on the traditions of celebrated polymaths from the ninth and tenth centuries 'School of Baghdad' - such as the Ban Ms , Thb it ibn Qurra, lbrh m ibn Sin , Ab Japfar al-Kh in, Ab Sahl Wayjan ibn Rust al-Qh - and eleventh-century Andalusian mathematicians like Ab al-Q im ibn al-Samh, and al-Mu'taman ibn Hd . The Archimedean-Apollonian traditions of these polymaths are thematically explored to illustrate the historical and epistemological development of 'infinitesimal mathematics' as it became more clearly articulated in the eleventh-century influential legacy of al-Hasan ibn al-Haytham ('Alhazen'). Contributing to a more informed and balanced understanding of the internal currents of the history of mathematics and the exact sciences in Islam, and of its
