An operations manual is the backbone of your company – the encyclopedia for your business. Your employee handbook may introduce your team to your mission, various policies (benefits, holiday leave, security), and culture, but the operations manual will show them how to do their job and give them everything they need to do it.

How to Create an Operations Manual for Your Business (and ...

As always, system updates occur automatically for security. Periodically, Windows checks for updates and installs them so you do not have to do anything. To update windows manually, click on the Start button and go to Settings -> Update & Security -> Windows Update, and select Check for updates (look up the manual for more info).
