The influence of the peer group typically peaks during adolescence, however, peer groups generally only affect short-term interests, unlike the family which has a long-term influence. In our society, adolescents are heavily influenced by their peers when it comes to dressing, musical fads, cheating, and drug use. In making their future life plans, however, they are influenced more by their parents than by their peers. Conversely, experimentation with drugs, drinking, vandalism, and stealing ...

But peer influence is a better way to describe how teenagers ' behaviour is shaped by wanting to feel they belong to a group of friends or peers. Peer pressure and influence can be positive. For example, your child might be influenced to become more assertive, try new activities, or to get more involved with school. But it can be negative too.

**Peer-pressure-&peer-influence-teens-|Raising-Children---**

Peer Groups influence the thinking, beliefs, and attitude towards everything in life. There is a certain age where people are influenced more by the peer circle instead of their parents and adults. For example, if an adult wants to try alcohol, he will confide the most in the person of his/her same age group.

**Concept-and-Examples-of-Peer-Group-And-Its-role-Cliques---**

Peers are people who are part of the same social group, so the term "peer pressure" means the influence that peers can have on each other. Although peer pressure does not necessarily have to be negative, the term "pressure" implies that the process influences people to do things that may be resistant to, or might not otherwise choose to do.
