From celebrated novelist S.E. Hinton, the classic YA novel *TEX*, now available as an eBook for the first time. Tex McCormick, fifteen, is happy: happy living in a small town in Oklahoma; happy living with his big brother Mason; and especially happy to live next door to his best friend Johnny, and Johnny's sister Jamie. But with money running out and no sign of Pop for months on end, Mason is getting nervous. He's talking about leaving Oklahoma too, for good. Feeling adrift, Tex goes looking for - and finds - trouble. When happiness is impossible to find, how will Tex keep himself and his family together? From the author of *THE OUTSIDERS*, S.E. Hinton's classic story explores the true meanings of strength and vulnerability. "In *Tex*, the raw energy for which Hinton has justifiably reaped praise has not been tamed—it's been cultivated, and the result is a fine, solidly constructed, and well-paced story." —School Library Journal An ALA Best Books for Young Adults A School Library Journal Best Books of the Year A New York Public Library Books for the Teen-Age An American Book Award Nominee

When the offer of a book deal comes through, Travis is hopeful that this is his chance to escape, if only his step-father will stop standing in the way of his dreams. From the author of *THE OUTSIDERS*, S.E. Hinton once again writes about what it feels like to be unaccepted, and the power in being true to yourself. "Hinton continues to grow more reflective in her books, but her great understanding, not of what teenagers are but of what they can hope to be, is undiminished." —Kirkus Reviews An ALA Best Books for Young Adults An ALA Quick Pick

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

From everyday apps to complex algorithms, Ruha Benjamin cuts through tech-industry hype to understand how emerging technologies can reinforce White supremacy and deepen social inequity. Benjamin argues that automation, far from being a sinister story of racist programmers scheming on the dark web, has the potential to hide, speed up, and deepen discrimination while appearing neutral and even benevolent when compared to the racism of a previous era. Presenting the concept of the "New Jim Code," she shows how a range of discriminatory designs encode inequity by explicitly amplifying racial hierarchies; by ignoring but thereby replicating social divisions; or by aiming to fix racial bias but ultimately doing quite the opposite. Moreover, she makes a compelling case for race itself as a kind of technology, designed to stratify and sanctify social injustice in the architecture of everyday life. This illuminating guide provides conceptual tools for decoding tech promises with sociologically informed skepticism. In doing so, it challenges us to question not only the technologies we are sold but also the ones we ourselves manufacture. Visit the book's free Discussion Guide [here](#).
