This debate was part of a much wider questioning of the central tenets of anthropological method and theory, including the division of the field into discrete domains such as politics, economics, kinship, religion, and theory.

us? Joseph E. David grapples with these questions through a genealogical analysis of ideas and concepts of belonging. His book transports readers to crucial historical moments in which perceptions of belonging have been formed, transformed, or dismantled. The cases presented here focus on the pivotal role played by belonging in kinship, law, and political order, stretching across cultural and religious contexts from eleventh-century Mediterranean religious legal debates to twentieth-century statist liberalism in Western societies. With his thorough inquiry into diverse discourses of belonging, David pushes past the politics of belonging and forces us to acknowledge just how wide-ranging and fluid notions of belonging can be.

In *Kinship, Islam, and the Politics of Marriage in Jordan*, Geoffrey Hughes sets out to trace the "marriage crisis" in Jordan and the Middle East. Rapid institutional, technological, and intellectual shifts in Jordan have challenged the traditional notions of marriage and the role of powerful patrilineal kin groups in society by promoting an alternative ideal of romantic love between husband and wife. Drawing on many years of fieldwork in rural Jordan, *Kinship, Islam, and the Politics of Marriage in Jordan* provides a firsthand look at how expectations around marriage are changing for young people in the Middle East even as they are still expected to raise money for housing, bridewealth, and a wedding. *Kinship, Islam, and the Politics of Marriage in Jordan* offers an intriguing look at the contrasts between the traditional values and social practices of rural Jordanians around marriage and the challenges and expectations of young people as their families negotiate

In *Political Kinship in Pakistan*, Stephen M. Lyon illustrates how contemporary politics in Pakistan are built on complex kinship networks created through marriage and descent relations. Lyon points to kinship as a critical mechanism for understanding both Pakistan's continued inability to develop strong and stable governments, and its incredible durability in the face of pressures that have led to the collapse and failure of other states around the world.

"*Politics and Kinship: A Reader* offers a unique overview of the entanglement of these two categories in both theoretical debates and everyday practices. The two, despite many challenges, are often thought to have become separated during the process of modernisation. Tracing how this notion of separation becomes idealized and translated into various contexts, this book sheds light on its epistemological limitations. Combining otherwise-distinct lines of discussion within political anthropology and kinship studies, the selection of texts covers a broad range of intersecting topics that range from military strategy, DNA testing, and child fostering, to practices of kinning the state. Beginning with the study of politics, the first part of this volume looks at how its separation from kinship came to be considered a 'modern' phenomenon, with significant consequences. The second part starts from kinship, showing how it was made into a separate and apolitical field - an idea that would soon travel and be translated globally into policies. The third part turns to reproductions through various transmissions and future making projects. Overall, the volume offers a fundamental critique of the epistemological separation
