But it was hard because the lessons Cait learned from her year of less were difficult ones, and the emotions she had to work through to learn them reminded me of painful struggles from my own life.

consumer debt, her old habits took hold again. When she realized that nothing she was doing or buying was making her happy--only keeping her from meeting her goals--she decided to set herself a challenge: she would not shop for an entire year. Now available for the first time in paperback, *The Year of Less* documents Cait's life for twelve months during which she bought only consumables: groceries, toiletries, gas for her car. Along the way, she challenged herself to consume less of many other things besides shopping. She decluttered her apartment and got rid of 70 percent of her belongings; learned how to fix things rather than throw them away; researched the zero waste movement; and completed a television ban. At every stage, she learned that the less she consumed, the more fulfilled she felt. The challenge became a lifeline when, in the course of the year, Cait found herself in situations that turned her life upside down. In the face of hardship, she realized why she had always turned to shopping, alcohol, and food--and what it had cost her. Unable to reach for any of her usual vices, she changed habits she'd spent years perfecting and discovered what truly mattered to her. Blending Cait's compelling story with inspiring insight and practical guidance, *The Year of Less* will leave you questioning what you're holding on to in your own life--and, quite possibly, lead you to find your own path of less.

Opt out of expectations and live a more intentional life with this refreshing guide from the national bestselling author of The Year of Less. We all follow our own path in life. At least, that's what we're told. In reality, many of us either do what is expected of us, or follow the invisible but well-worn paths that

lead to what is culturally acceptable. For some, those paths are fine -- even great. But they leave some of us feeling disconnected from ourselves and what we really want. When that discomfort finally outweighs the fear of trying something new, we're ready to opt out. After going through this process many times, Cait Flanders found there is an incredible parallel between taking a different path in life and the psychological work it takes to summit a mountain -- especially when you decide to go solo. In *Adventures in Opting Out*, she offers a trail map to help you with both. As you'll see, reaching the first viewpoint can be easy -- and it offers a glimpse of what you're walking toward. Climbing to the summit for the full view is worth it. But in the space between those two peaks you will enter a world completely unknown to you, and that is the most difficult part of the path to navigate. With Flanders's guidance and advice, drawn from her own journey and stories of others, you'll have all the encouragement and insight you'll need to take the path less traveled and create the life you want. Just step up to the trailhead and expect it to be an adventure.

The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.
