Til Debt Do Us Part is a Canadian television series produced by Frantic Films for Slice in Canada, Zone Reality in the United Kingdom and CNBC in the United States. It is hosted by Gail Vaz-Oxlade, who each week visits a couple who are in debt and having relationship troubles. The participants are given weekly challenges, some of which are to help bring the finances and debt under control, with the others meant to help the couple's relationship. At the end of one month, Vaz-Oxlade gives the coup

Money worries rank among the highest causes of marital stress and divorce. Yet few people recognize that their spending habits might have more to do with their emotions, their upbringing, and their communication skills than with their net income. In Til Debt Do Us Part, Dr. Bernard Poduska helps you understand where your financial problems might have their roots, how you can learn to balance your own needs with your family's desires, and how you can manage debt even when it seems to have gotten completely out of your control. You'll learn how to recognize and overcome addictive spending, how to get through the month with the money you have, and how to plan for your future. If you're ready to get to the bottom of your financial challenges, Til Debt Do Us Part will give you the tools and insights you need.

This is the inspiring true story of Angela Greenwood, a mother of four from the NSW north coast, who mustered incredible strength to take on a high-flying legal team and one of Australia's largest banks. When Angela opened a letter by mistake from her father-in-law, it was the first she knew of a crisis that would threaten her marriage and cost her family their life savings. Over two years her husband had gambled - and lost - close to one million dollars by trading on the foreign exchange markets through the bank. Not once did the bank inform Angela that the money was disappearing from their joint account faster than her husband could withdraw it. Yet instead of crumbling, Angela found a country lawyer, herself a mother of four, and together they mounted a legal fight that took six years and made national headlines. This book is their story - an incredible tale of two women triumphing over the system, and a bank behaving badly.

Free yourself from maxed-out cards, mounting interest, and constant money stress with this (entertaining and easy to read) guide (Windsor Star). If you're afraid to open your bills, if you've never added up how much you owe, if you can't even imagine being debt-free! it's time to join the thousands of people Gail Vaz-Oxlade has helped. Her straightforward approach to money management is based on self-control, hard work, and prioritizing what's really important. Debt-Free Forever is Gail's step-by-step guide, and she'll show you how to: figure out how much you've actually been spending calculate how much you owe! and what it's costing you build a budget that works maximize your debt repayments so you can be free of consumer debt in three years or less prepare for a rainy day so it doesn't cause a major setback set goals for your new, debt-free life Make no mistake: Getting out of debt isn't easy. But in Debt-Free Forever, Gail gives you a clear strategy and the steps needed to implement it. So if you're finished with excuses, overdue notices, and maxed-out credit cards, follow the plan! and start becoming debt-free forever.

!A single source for what you need to know to put your financial house in order, an impressive piece of work, and very useful. | Bob Clark, Editor-in-Chief, Dow Jones Investment Advisor Ric Edelman, America's most successful financial advisor, has revised and updated his classic personal finance bestseller to reflect the new global economic outlook. In his 4th edition of The Truth About Money, Edelman tells you everything you need to know about money! an essential, yet delightfully breezy and accessible, must-read manual for anyone who may have previously sought the financial wisdom of Suze Orman and Jean Chatzky. The Truth About Money is an indispensable guide to money matters from the man whom Barrons named the #1 independent financial advisor in the country.

With decentralization and urbanization, the debts of state and local governments and of quasi-public agencies have grown in importance. Rapid urbanization in developing countries requires large-scale infrastructure financing to help absorb influxes of rural populations. Borrowing enables state and local governments to capture the benefits of major capital investments immediately and to finance infrastructure more equitably across multiple generations of service users. With debt comes the risk of insolvency. Subnational debt crises have recurred in both developed and developing countries. Restructuring debt and ensuring its sustainability confront moral hazard and fiscal incentives in a multilevel government system; individual subnational governments might free-ride common resources, and public officials at all levels might shift the cost of excessive borrowing to future generations. This book brings together the reform experiences of emerging economies and developed countries. Written by leading practitioners and experts in public finance in the context of multilevel government systems, the book examines the interaction of markets, regulators, subnational borrowers, creditors, national governments, taxpayers, ex-ante rules, and ex-post insolvency systems in the quest for subnational fiscal discipline. Such a quest is intertwined with a country's historical, political, and economic context. The formal legal framework interacts with political reality to influence the dynamics of and incentives for reform. Often, the resolution of a subnational debt crisis unfolds in the context of macroeconomic stabilization and structural reforms. The book includes reforms that have not been covered by previous literature, such as those of China, Colombia, France, Hungary, Mexico, and South Africa. The book also presents a comprehensive review of how the United States developed its debt market for state and local governments, through a series of reforms that are path dependent, including the reforms and lessons learned following state defaults in the 1840s and the debates that shaped the enactment of Chapter 9 of the Bankruptcy Code in 1937. Looking forward, pressures on subnational finance are likely to continue from the fragility of global recovery, the potentially higher cost of capital, refinancing risks, and sovereign risks. This book is essential reading for anyone wanting to know the challenges and reform options in debt restructuring, insolvency frameworks, and public debt market development.

The national bestseller that helps you turn common sense into money in the bank! Now updated with 10 new rules to live by Gail Vaz-Oxlade likes to say that managing money isn't rocket science, it's discipline. But even she acknowledges that there are tricks to her trade and that making money decisions often feels more complicated than it needs to be. So, where do you start? With Gail's Money Rules, of course! her essential rules for making your money work for you. Covering every topic under the financial sun! from TFSA's to taxes, borrowing to breaking bad habits, relationships to RRSP's! Gail will show you that many of the rules you may have been following might actually be working against your best interests. Some of her advice is, as she says, common sense (Rule #17: Needs Must Come Before Wants), some of it is surprising (Rule #22: Don't Borrow to Contribute to an RRSP) and some may even seem counterintuitive coming from Gail (Rule #261: Take Pleasure from Your Money). New to this edition are rules that will help you maximize the return on your savings, get your head straight about what renovations really mean for your bottom line, and calculate your burn rate. All of the rules are divided into digestible pieces that give you a clear sense of what works and what doesn't! and how to start incorporating her advice into your life today. For money-phobes, this book will be a kick in the pants; for money minders, it will ease the worry that they've left a stone unturned; for everyone, Money Rules reveals what it takes to build a financial foundation that will last a lifetime.

Take on your toughest money problem: the people you love. Gail Vaz-Oxlade gets hundreds of letters every month from people who can't figure out how to get their sister off their couch, their mother to stop hitting them up for money, or their mates to recognize that saving is part of having a solid financial foundation. The letters have a common theme: Gail, how do I get through to them? Money Talks is Gail's answer to that tough! and common! problem that sits at the heart of money and relationships: how to tell your mate, your father, your best friend or your grandmother it's time for a change. Whether it's sisters fighting over the future of the family home, life partners arguing over whose shopping is really messing with the budget, or parents wondering when their adult child will ever leave the nest, the !money! gets blamed for what is actually an inability to figure out the real problem and deal with it objectively. That's where Gail steps in. With over seventy-five different scenarios drawn from years of working with real Canadians, Gail helps readers see their own situations through stories that reflect what they're experiencing. Then she gives readers the language to negotiate effectively, showing them that for each problem there are steps they can take to find a solution. Gail has long believed that so many money issues have more to do with our behaviour than with the money itself. People can be delusional, selfish, inconsistent, fearful, lazy, bullying and entitled, and those traits are reflected in how they deal with money. Relationships seldom disintegrate just because people are !bad with money!. But how each person responds to the other! and to the real issues! can make or break a relationship. Have a bully in your life? Wish your brother would grow the hell up and stop counting on you to save his butt? Want to tell your BFF that dreaming is only the first step in making a better life? Gail will show you how. Gail bets that there many people you will recognize as you read Money Talks! and one of them just might be yourself.

With everything she does, Gail Vaz-Oxlade focuses on putting money in perspective and encouraging people to take control of their money and their lives. But over the years, she's found that an astonishing number of smart, competent women are relinquishing that control. It's Your Money is designed to inspire and inform them to take charge of their financial destinies. This book will help each reader come to terms with why she deals with her money as she does. It helps her establish a solid financial foundation on which to build as she moves through her life. Gail walks her through the major milestones! partnering, raising a family and retiring! making sure she is empowered to make her own decisions, if she's in a relationship or not. It also shows the reader how to cope when stuff hits the fan, without adding financial stress to her burdens. For the woman who finds herself the sole breadwinner in a family, dealing with aging parents or coping with divorce or widowhood, Gail shows her how to keep her financial life on track. Whether they need Gail's voice to encourage them to reach for new financial goals, or to kick their credit-card-happy butts back into line, women will turn to It's Your Money in good times and in bad.
