Transitions Theory: Middle Range and Situation Specific ...

The emerging middle-range theory of transitions consists of types and patterns of transitions, properties of transition experiences, facilitating and inhibiting conditions, process indicators, outcome indicators, and nursing therapeutics. The diversity, complexity, and multiple dimensionality of transition experiences need to be further explored and incorporated in future research and nursing practice related to transitions.

Experiencing transitions: an emerging middle-range theory

Afaf Meleis, the dean of the University of Pennsylvania School of Nursing, presents for the first time in a single volume her original transitions theory that integrates middle-range theory to assist nurses in facilitating positive transitions for patients, families, and communities.

Transitions Theory: Middle-Range and Situation-Specific ...

A middle range nursing theory, Transitions theory centers on the process of individuals' transitions and addresses the barriers to and principles of successful transitional outcomes (Meleis, 2010). The theory is both descriptive and predictive, it can be used to further describe and define the problem of poor transitions and its
