Lightfoot stepped forward to develop an undergraduate course at the University of Wisconsin to integrate the teaching of fluid flow, heat transfer, and diffusion. From this beginning, they prepared the landmark textbook, Transport Phenomena, published in 1960 by John Wiley & Sons.

When "BSL 1960" was first published, the authors expressed their belief that transport phenomena should be recognized as one of the engineering sciences.

Now 60 years later, this

belief has been justified.  
This is the reason that  
the appearance in 1960  
of BSL is significant for  
the chemical  
engineering profession.
