UI is Communication - 1st Edition
All rights reserved. UI design is ultimately about communicating to users, both in terms of what you say and how you say it. If you can explain how to perform a task to the target user in person in a way that's clear and concise, you can apply those same communication techniques in a UI. We should have the same standards for software interaction as we do for social interaction. If a UI feels like a natural, professional, friendly conversation, it's probably a good design.

UI is Communication: How to design intuitive, user ...
UI Is Communication: How to Design Intuitive, User Centered Interfaces by Focusing on Effective Communication is a book about user interface design, but describing it as such doesn't really do it justice. The user interface of a product is only one part of the overall experience for someone, but it's the most obvious, visible part.
