Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

All she knows is that she can try to survive her life for the rest of her days with Luca. Update from author: I'm listening! In my zeal to tell my story, I relied on the expertise of others to ensure it went from my head to the printed page, which didn't go exactly as planned. [Deadly Vows](#) has now been re-edited to ensure the grammar and punctuation are now as they should be. Enjoy!

Inspired by true events...The first day of college gives every girl a chance to reinvent herself.I go and screw mine up by meeting the most gorgeous guy I've seen in five years while talking to my cat.But Andrew Crowner is far from judgmental. By the end of our interaction, he has me smitten by his easy manner and kind smile. And from the way his eyes linger on me before he leaves, I start to think that maybe I've caught his attention, too.I let myself believe that luck may finally be on my side. That is, until I stumble on my roommate, and her overnight guest: Spencer Ashford.Lean, tattooed, and sexy as sin, Spencer is exactly the type I need to avoid. I would have no trouble with that... were it not for his swift and inexplicable interest in me.Suddenly, I go from a girl with next-to-no experience with boys to one caught in the crosshairs of two completely different men.Andrew's interest is wholesome and sweet. Spencer's is edgy and raw. My choice should be easy. But there are always complications, and sometimes, matters of the heart take the least expected turns.

The federal professional services market is one of the world 's largest, and one of the most competitive. Companies struggle to compete and prosper. In [Zero to a Billion](#), David Kriegman, former SRA International executive, presents techniques to help companies succeed where many have failed. His book goes beyond standard compliance books to provide answers to questions like these: Why do some companies grow while others stagnate or go out of business? How do you differentiate yourself and compete with much larger companies? Why do you lose work when the customer says you are doing a good job? How do you attract, retain, and motivate top talent? Why do some acquisitions succeed while others are considered less than a success or even a failure? Kriegman draws on his thirty years of experience to illustrate the essential lessons of strategy, business development, cultural issues and operations with real-world examples and actionable ideas. The book is recommended for new and mid-career managers as well as seasoned executives.

The [Racial Contract](#) puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The [Racial Contract](#) argues that the society we live in is a continuing white supremacist state. Holding up a mirror to mainstream philosophy, this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract, to the "separate but equal" system of segregation in the twentieth-century United States. According to Mills, the contract has provided the theoretical architecture justifying an entire history of European atrocity against non-whites, from David Hume's and Immanuel Kant's claims that blacks had inferior cognitive power, to the Holocaust, to the kind of imperialism in Asia that was demonstrated by the Vietnam War. Mills suggests that the ghettoization of philosophical work on race is no accident. This work challenges the assumption that mainstream theory is itself raceless. Just as feminist theory has revealed orthodox political philosophy's invisible white male bias, Mills's explication of the racial contract exposes its racial underpinnings.
