This revelation seems incredible, but it gives the two friends hope that they can escape the brutality of their lives. Yet when, after a gripping chase, they manage to get off the island, what they discover is a shock. Not only is the Outside alien and frightening, it forces them to understand the appalling truth about where they have come from, and why they were there. From the provocative author of *Straw Dogs* comes an incisive, surprising intervention in the political and scientific debate over religion and atheism. When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood “science.” John Gray’s stimulating and enjoyable new book, *Seven Types of Atheism*, describes the complex, dynamic world of older atheisms, a tradition that is, he writes, in many ways intertwined with and as rich as religion itself. Along a spectrum that ranges from the convictions of “God-haters” like the Marquis de Sade to the mysticism of Arthur Schopenhauer, from Bertrand Russell’s search for truth in mathematics to secular political religions like Jacobinism and Nazism, Gray explores the various ways great minds have attempted to understand the questions of salvation, purpose, progress, and evil. The result is a book that sheds an extraordinary light on what it is to be human.

A memoir done in the form of a graphic novel by a cult favorite comic artist offers a darkly funny family portrait that details her relationship with her father—a funeral home director, high school English teacher, and closeted homosexual.

Robin's New Year's resolution to change her eating habits is as unusual as she is. Unlike millions of other women, she isn't tempted by chocolate or junk food. She's a vampire, determined to fight her craving for a pint of O negative. When she goes to an AA meeting, hoping for advice on fighting her addiction, she meets Alana, a woman who battles her own demons. Despite their determination not to get involved, the attraction is undeniable. Is it just bloodlust that makes Robin think Alana looks good enough to eat, or is it something more? Will it even matter once Alana finds out who Robin really is?

Nominated for the Governor General's Literary Awards 2005, (Children's Literature, Text) Fifteen-year-old Francis's father has committed suicide and nothing will be the same again. Suicide is ugly, unglamorous, and it is never a solution. Its aftermath is dreadful. At first, Francis feels a terrible guilt. Could he have been a better son? What if he hadn't left his home in Montreal to go on a brief holiday in New York the weekend it happened? Soon the guilt turns to anger and then to a sadness so profound that he thinks he can't bear it. After is the map of a year following the suicide of a family member. In the course of months, with the love of his

mother, with counseling, and with the balm of time, Francis takes his first steps toward coming to terms with his father's – and his family's – tragedy. After is intensely personal, but it will resonate with anyone who has faced the loss of a loved one. This brilliant autobiographical first novel is an acute analysis of the grieving process. Although it is steeped in Francis's sadness, it is ultimately a story of hope.

From the author of Fun Home, a profoundly affecting graphic memoir of Bechdel's lifelong love affair with exercise, set against a hilarious chronicle of fitness fads in our times Comics and cultural superstar Alison Bechdel delivers a deeply layered story of her fascination, from childhood to adulthood, with every fitness craze to come down the pike: from Jack LaLanne in the 60s ("Outlandish jumpsuit! Cantaloupe-sized guns!") to the existential oddness of present-day spin class. Readers will see their athletic or semi-active pasts flash before their eyes through an ever-evolving panoply of running shoes, bicycles, skis, and sundry other gear. But the more Bechdel tries to improve herself, the more her self appears to be the thing in her way. She turns for enlightenment to Eastern philosophers and literary figures, including Beat writer Jack Kerouac, whose search for self-transcendence in the great outdoors appears in moving conversation with the author's own. This gifted artist and not-getting-any-younger exerciser comes to a soulful conclusion. The secret to superhuman strength lies not in six-pack abs, but in something much less clearly defined: facing her own non-transcendent but all-important interdependence with others. A heartrendingly comic chronicle for our times.
