Monkeys, toucans, and alligators unleash mayhem.

An E. B. White Read-Aloud Honor Book An ALA Notable Book A Huffington Post Notable Book CAUTION! This book contains monkeys, alligators, and a whole lot of silliness. You really shouldn't be opening this book. I'm serious. Just put it back on the shelf. Right...now. You're still reading this? Well, don't say I didn't warn you... It looks like a book, it feels like a book, and it even smells like a book. But watch out...madness and mayhem lie within! Debut author Adam Lehrhaupt urges you NOT to take a walk on the wild side in this humorous, interactive romp with inventive and engaging illustrations from Eisner Award-winning comic artist and rising star children's book illustrator Matthew Forsythe. Warning: Do Not Open This Book? won the E.B. White Read-Aloud Honor award and was a 2013 Huffington Post Best Picture Book honorable mention and an ALA Notable Children's Book. This quirky, subversive creation begs to be enjoyed again and again and again. "These monkeys are a RIOT! And their books are funny, too!" -Ame Dyckman

Recipient of the Wanda Gag Read Aloud Book Award They told you, but you just couldn't listen--so the creators of Warning: Do Not Open This Book! are back with a zany monkey crew, and they need your help! In Warning, Do Not Open This Book!, which School Library Journal called "more fun than a barrel of monkeys," turning pages meant increased chaos and delight. Now the tables have turned, and opening the book is the only way to save the group of monkeys who are trapped between its pages. This irresistibly entertaining rescue effort puts power in the hands of the page-turner, and giggles into everyone! "These monkeys are a RIOT! And their books are funny, too!" -Ame Dyckman

Psst! Want to know a secret? Do you dare open me up? Because inside you'll find the incredible TRUTH about mind-boggling confidential stuff 'they' don't want you to know! And wanna know something else? Now, my New York Times-Bestselling self is an ebook!! Find out where the Bermuda Triangle is, whether alien abductions actually happen, and the truth about crop circles. Explore lost worlds, unravel secret codes, marvel at mysterious places and meet spooks, spies, secret keepers and scandal makers of the world. When you've finished riddle solving, close me up in my funky cage so no one else can get at my secrets! But ssh! Don't tell a soul.

Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is

very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

An unprecedented behind-the-scenes portrait of the Trump presidency from the anonymous senior official whose first words of warning about the president rocked the nation's capital. On September 5, 2018, the New York Times published a bombshell essay and took the rare step of granting its writer anonymity. Described only as "a senior official in the Trump administration," the author provided eyewitness insight into White House chaos, administration instability, and the people working to keep Donald Trump's reckless impulses in check. With the 2020 election on the horizon, Anonymous is speaking out once again. In this book, the original author pulls back the curtain even further, offering a first-of-its-kind look at the president and his record -- a must-read before Election Day. It will surprise and challenge both Democrats and Republicans, motivate them to consider how we judge our nation's leaders, and illuminate the consequences of re-electing a commander in chief unfit for the role. This book is a sobering assessment of the man in the Oval Office and a warning about something even more important -- who we are as a people.

Funny weird notebook gag gift warning others to not open, as though such a harsh warning won't invite even more curiosity to see what secrets your writing holds. Will the details of your last lunch be included? Or perhaps your prediction about the zombie apocalypse? Either way, get laughs and provoke some smiles with this unique warning. Blank notebook with college ruled pages.

Online learning has increasingly been viewed as a possible way to remove barriers associated with traditional face-to-face teaching, such as overcrowded classrooms and shortage of certified teachers. While online learning has been recognized as a possible approach to deliver more desirable learning outcomes, close to half of online students drop out as a result of student-related, course-related, and out-of-school-related factors (e.g., poor self-regulation; ineffective teacher-student, student-student, and platform-student interactions; low household income). Many educators have expressed concern over students who unexpectedly begin to struggle and appear to fall off track without apparent reason. A well-implemented early warning system, therefore, can help educators identify students at risk of dropping out and assign and monitor interventions to keep them on track for graduation. Despite the popularity of early warning systems, research on their design and implementation is sparse. Early Warning Systems and Targeted Interventions for Student Success in

Online Courses is a cutting-edge research publication that examines current theoretical frameworks, research projects, and empirical studies related to the design, implementation, and evaluation of early warning systems and targeted interventions and discusses their implications for policy and practice. Moreover, this book will review common challenges of early warning systems and dashboard design and will explore design principles and data visualization tools to make data more understandable and, therefore, more actionable. Highlighting a range of topics such as curriculum design, game-based learning, and learning support, it is ideal for academicians, policymakers, administrators, researchers, education professionals, instructional designers, data analysts, and students.

Mole's best friend, the Lumpy-Bumpy Thing, has found a hat. On it there's a label that reads Warning! Do Not Touch! The Lumpy-Bumpy Thing picks up the hat and puts it on his head. But Mole is worried. "Quick! Take it off!" he cries. "It could be dangerous!" Suddenly, a bunny hops out of the hat, and then another, and another! Soon, there are too many bunnies to count! What can Mole and the Lumpy-Bumpy Thing do now?
